FOREWORD

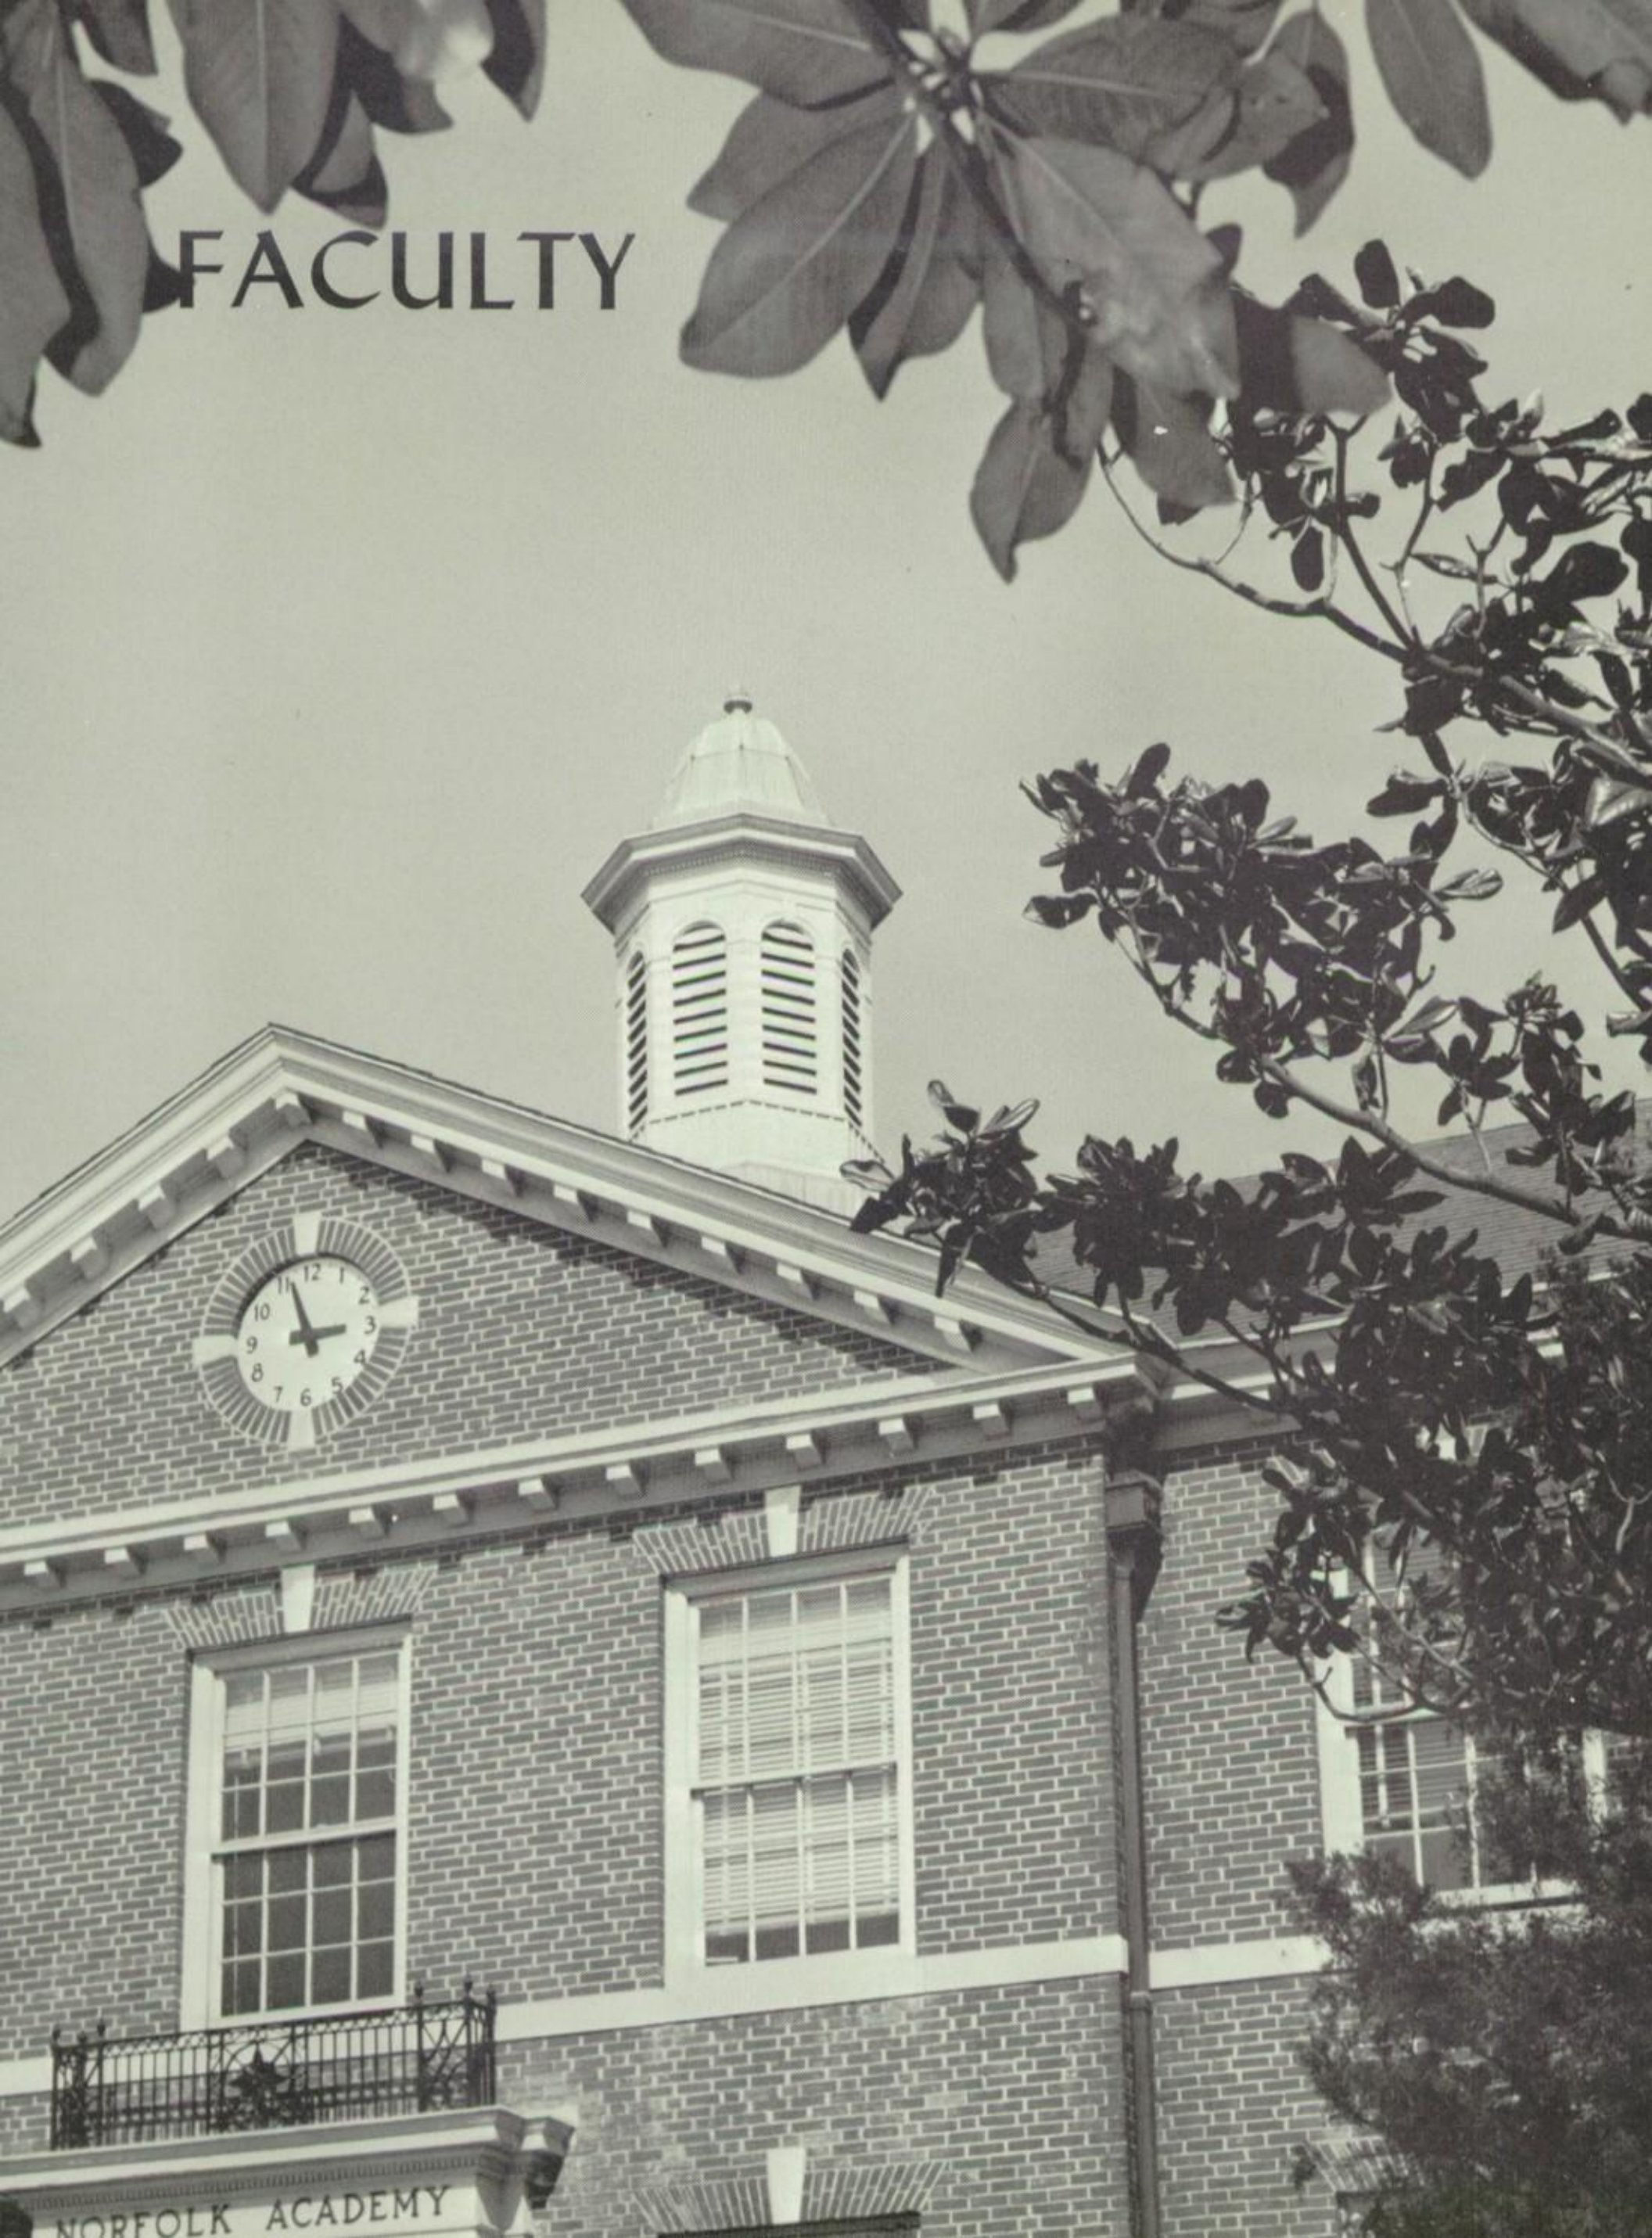
Since this time a year ago, our world has changed dramatically and continues to do so every day. Each day brings us closer to the conquest of the planets and eventually the stars. Before these words are published, man may have reached the moon. In an age such as this, it is not surprising that we of the class of 1962 face the future with feelings of awe and trepidation. Mankind is coming of age and in times like these, men with maturity are needed to maintain order and sanity in the face of the swift and dangerous fluxion of events.

The Norfolk Academy has provided the source of such a maturity which, coupled with dedication and ambition, will form the base on which we can build the character and personality necessary to the leaders of tomorrow.

The class of 1962 gratefully acknowledges the Norfolk Academy and its masters for the guidance they have given so well and hopes that it will put the knowledge and character acquired to the best possible use.

The Class of 1962

FACULTY



MR. JAMES BUCKNER MASSEY, JR. — HEADMASTER

The welfare of the Norfolk Academy is Mr. Massey's foremost concern. In his eleven years as headmaster of the Academy, he has effected many outstanding changes. The faculty has been enlarged and the academic and athletic programs have been expanded to compensate for the Academy's growing enrollment which has almost tripled since 1951. The number of buildings has been increased from two to five, including two of the best science laboratories and one of the few language laboratories in the private schools of Virginia.

The true measure of a headmaster's efficiency, however, is indicated not by the number of buildings or size of enrollment, but by the achievements of the students who graduate from his school. Since Mr. Massey became headmaster, every student that graduated from the Academy has entered college. Many have become officers of their class or club, or editor of the school's newspaper or yearbook. Many have graduated from under-graduate school with high honors and an extraordinarily large percentage have gone on to graduate school. It is doubtful that any other Virginia school the same size as the Academy can boast of such a fine record.

To the younger boys at the Norfolk Academy, Mr. Massey is a kind teacher who helps them with their problems; to the older boys, he is often the person asking them to "take stock of themselves" or to "represent the Academy at all times in such a way as to uphold the standards of the school"; to graduating seniors, he is the helpful guidance counselor doing his utmost to get them into the college for which they are best suited.

These examples all help to prove that to Mr. Massey, as all people affiliated with the school know, the Academy and its boys come *first!*

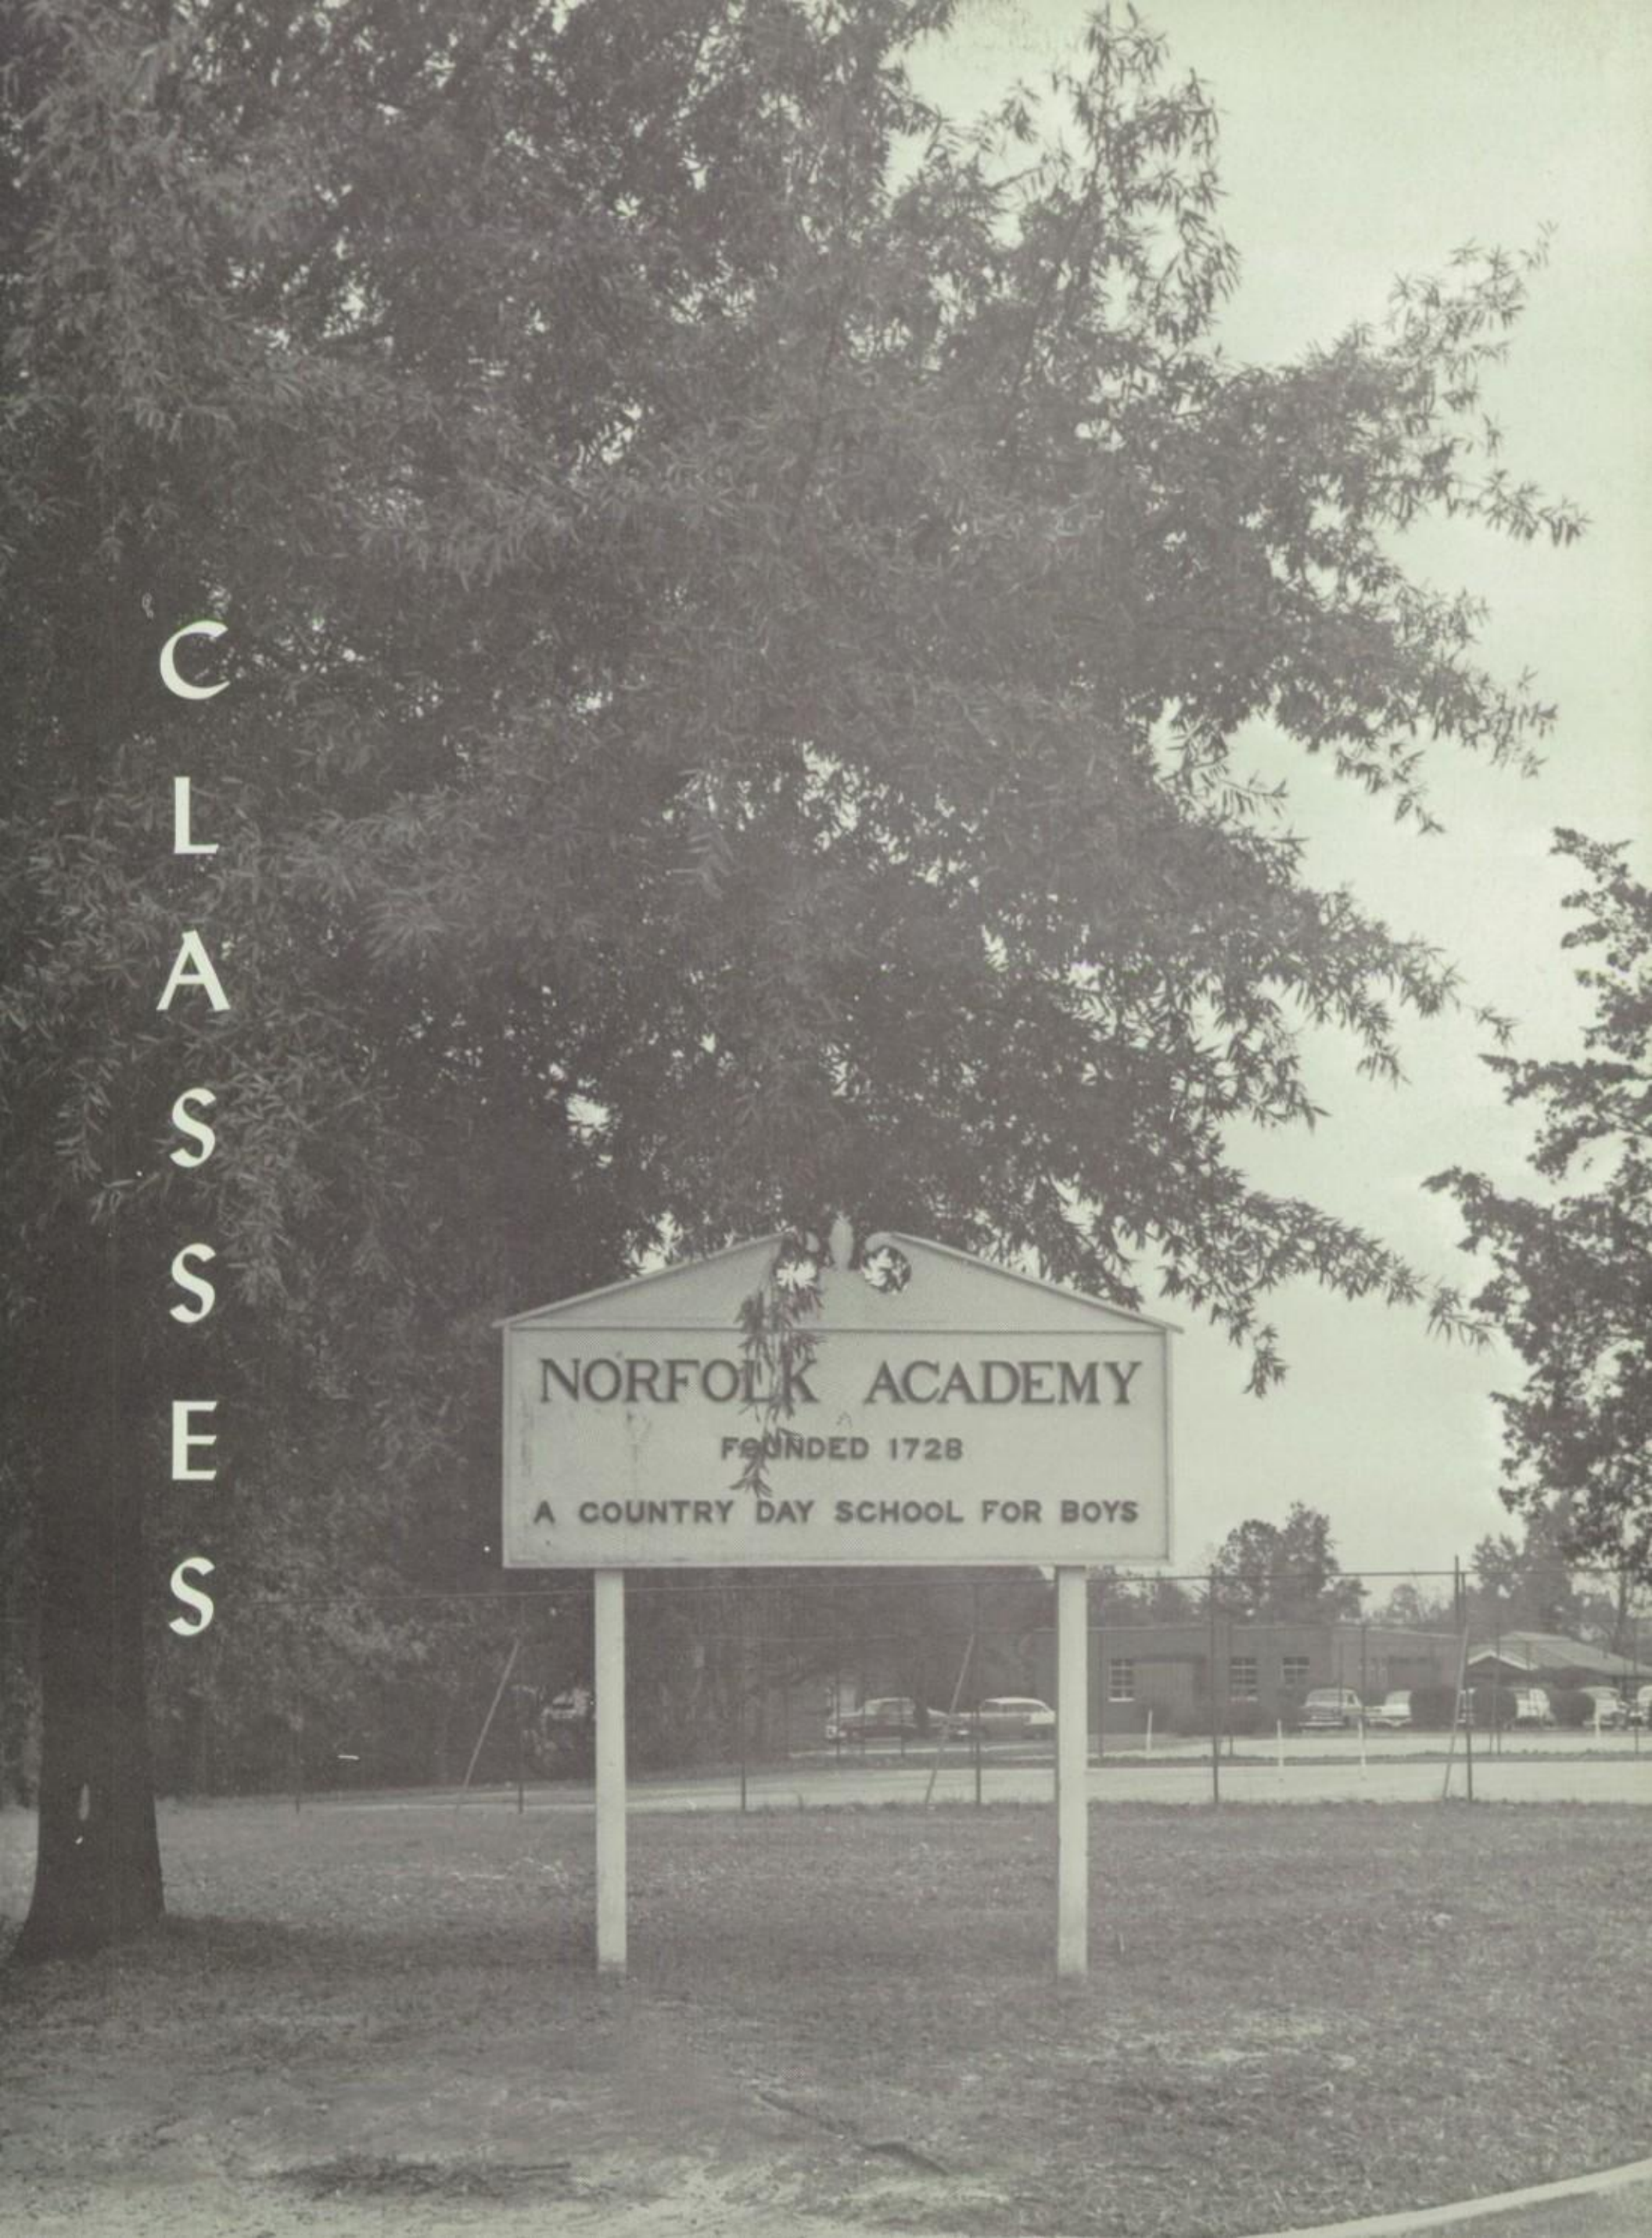
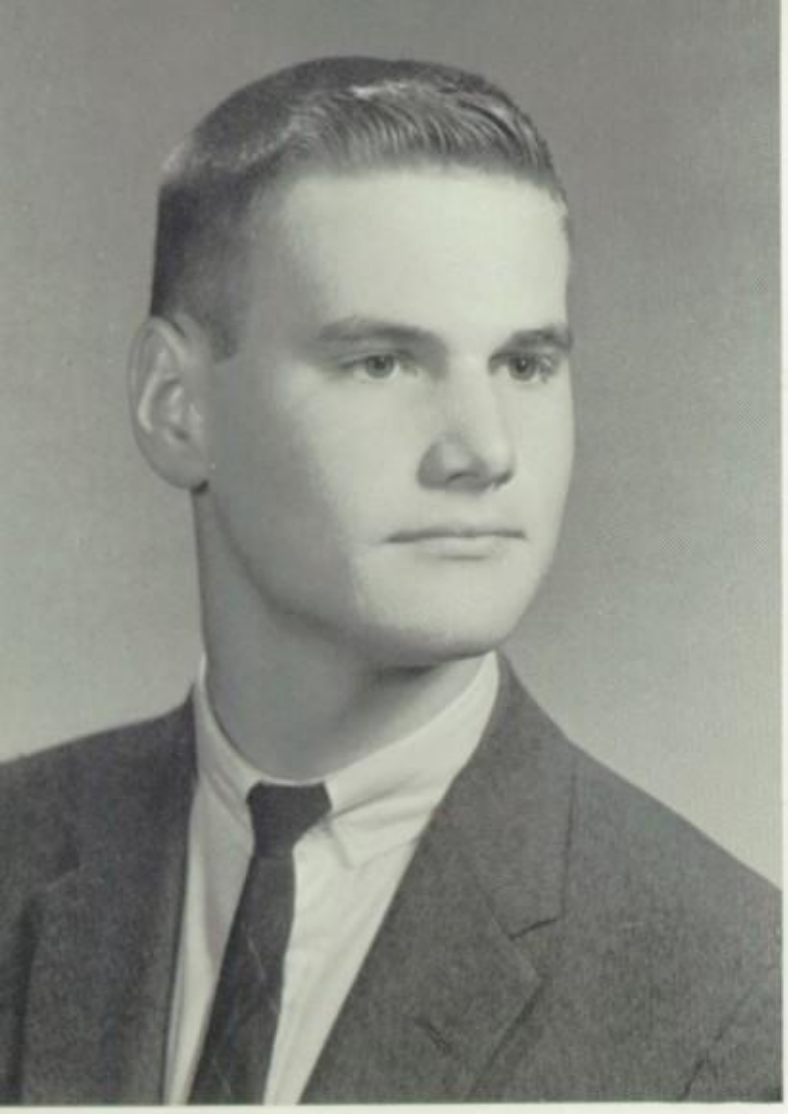
CLASSES





JOHN BALDWIN BLACKFORD

The time: just after sundown. The place: the edge of the swamp. In the fading light, a figure is discernable picking its way through the mire. Is it some prehistoric creature which, by some freak chance, has escaped extinction in the ice age emerging from its unpenetrable lair to wreak havoc on the world? Is it some desperate fugitive leaving his hideaway? Should the neighborhood be evacuated? Should the police be called? The National Guard? The United Nations? No, all that won't be necessary. It's merely Johnny Blackford coming home from a field trip, bearing triumphantly some rare biological specimens.

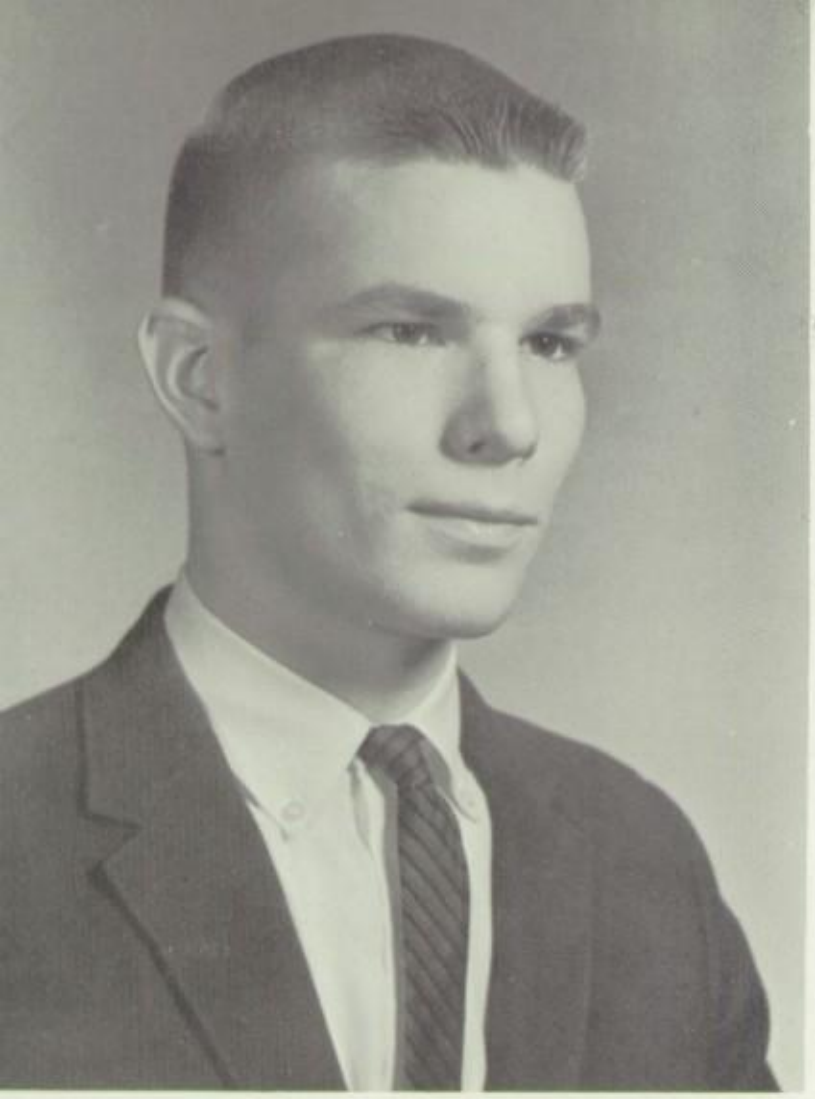
As some more astute readers may have guessed by now, Johnny is quite interested in science, particularly zoology. In fact, he currently plans to study zoology at U. N. C. He is, however, also interested in many other things such as philosophy and folk music. Johnny has been one of the outstanding individualists of the class of '62 and, as such, a valuable asset to it. Rarely does one find a high school student who has devoted himself so completely to and developed so well his interests as had Johnny. We may all be sure that these same qualities will lead him to be an outstanding student in college.

J.E.M.

RICHARD WILLIAM BRAUN

Richard is the newest addition to the Senior Class. He has returned to the States after three years in London, England, where he attended the American School in London. While there, he was very active in numerous school activities such as athletics, drama, and student government. Richard's main interests, however, occur in the scientific field, specifically Chemistry. To look at Richard, one wouldn't expect these accomplishments, for he is quiet and modest. However, for the short while that he has been at the Academy, he has already achieved an honor roll average, and is pursuing his interest in the Senior Science Club. He has taken part in varsity sports: football, soccer, and baseball. We have faith that Richard will take to the college of his choice an earnest interest in chemical engineering.

S.A.S.



JAMES GILL BROCKENBROUGH

"But, sir," rings out a voice from the corner of history class. "It is obvious that a monarchy is the ideal form of government for a country such as the United States." Upon inspection, one will find the speaker to be Gill Brockenbrough, gentleman and conservative (Gill maintains the terms are synonymous). Other than his frequent comments on political and social affairs, one rarely hears a comment from Gill during a class period. There has been some debate as to the reason for this silence. The prevalent opinion, however, is that Gill does not want to open his mouth and betray a lack of the homework which he disdains.

Gill is a much more serious person than he cares to admit. This fact will be borne out by his conscientious work in both his church fellowship and his work as editor of The Belfrey. In his years at the Academy, his easygoing and accomodating manner has won him the respect and friendship of many. We of the class of 1962 feel that Gill will always be an asset to those around him. His present plans include the University of Virginia.

J.B.D.

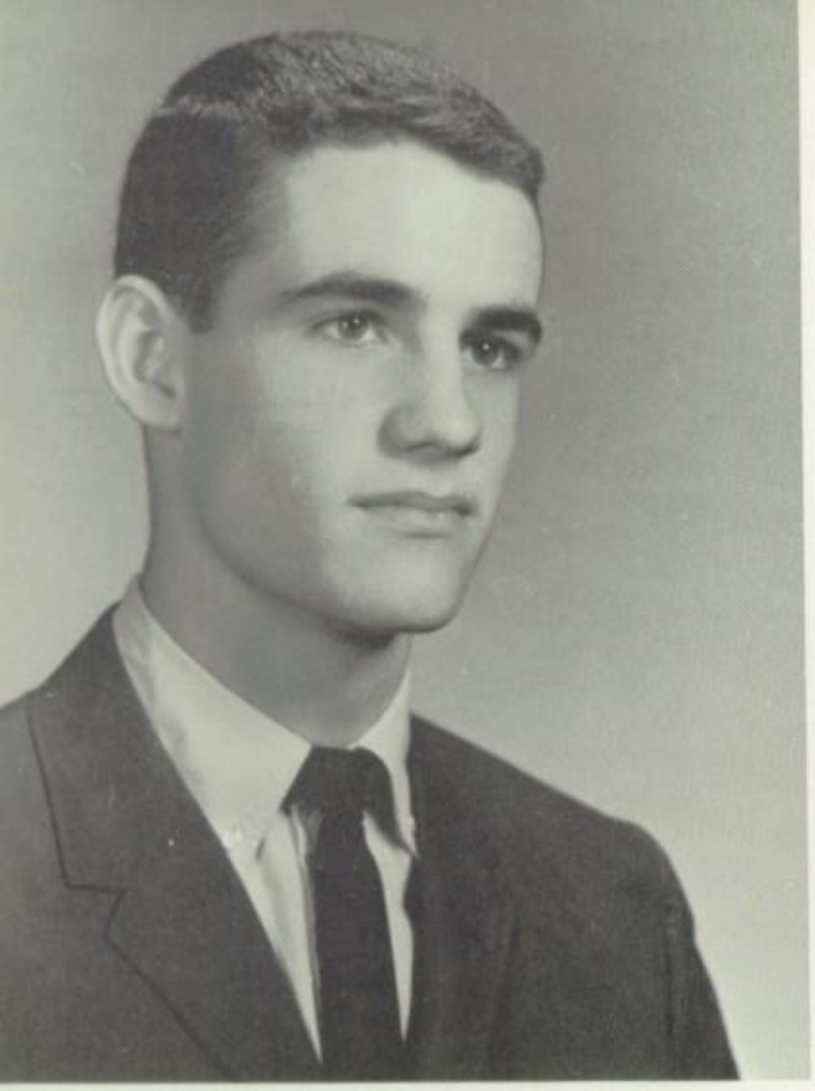
OTIS ROBERT COLE, III

Ever since Bob came to this school three years ago, he has excelled in sports and studies. He has been a class officer ever since the ninth grade. He has been on the year's Honor Roll twice, and has received many awards for his outstanding work.

Bob has played football, wrestled, and played baseball, lettering in all three. He has been an asset to all sports in which he participated.

Bob is a member and vice president of the Key Club, member of the Monogram Club, treasurer of the Senior Class, and Student Council, and member of the Honor Council. Bob is well liked by the boys and is very friendly. If Bob carries all his traits from the Academy to the Naval Academy, his first college choice, he will be as big a success as he was here.

J.G.S.



ROBERT STUART CULPEPPER

Bob is one of the most popular boys in the senior class because of his easy-going manner. He has demonstrated his ability on the athletic field as well as in the classroom. He has excelled in basketball and baseball and has maintained a first string position on the senior S.H. team.

Bob is an individual in that he is not afraid to state his true opinions on any subject which is presented. His voice is often heard in the classroom, "This homework took me *5* hours last night — well, almost that long." But somehow he always seems to come through in the clutch with flying colors.

His easy-going manner has won the respect of his many friends, and the hearts of many girls. Having dated more girls than any other person at good old N.A., we feel sure that Bob will be an asset to those around him wherever he goes.

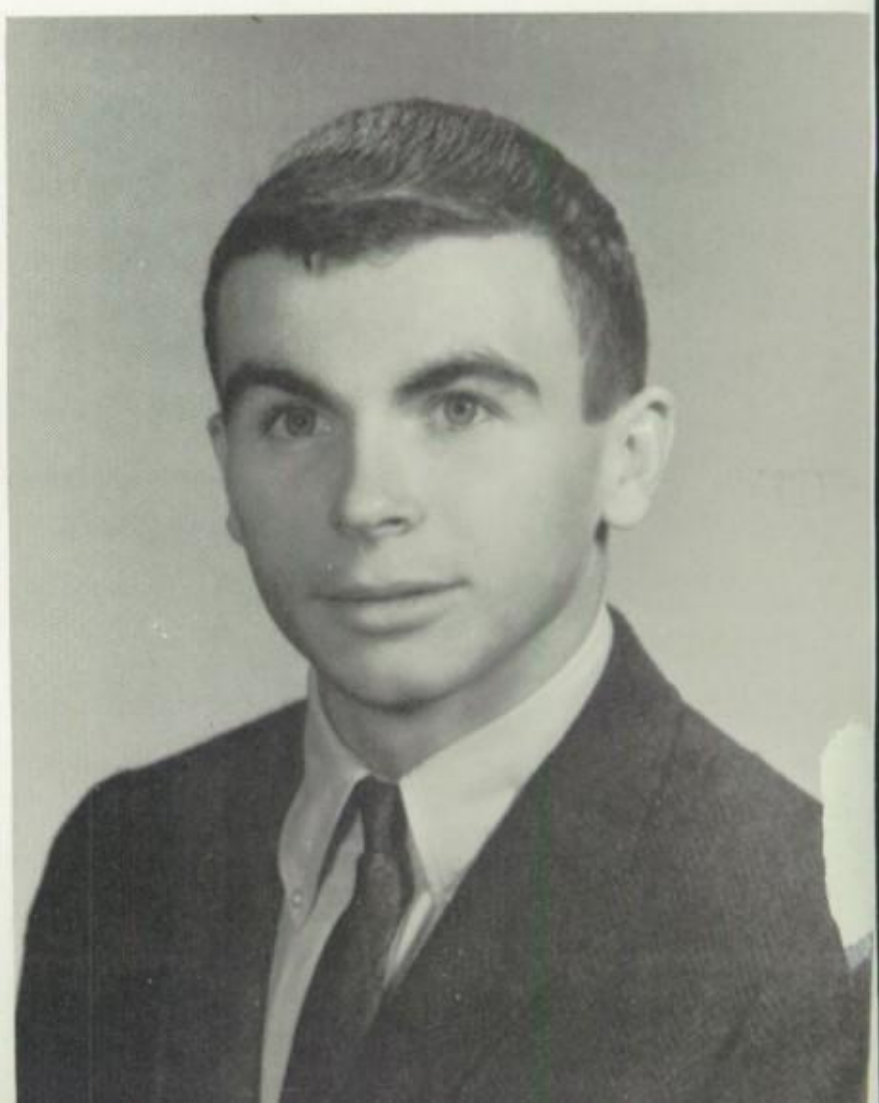
CHARLES E. DAVIS

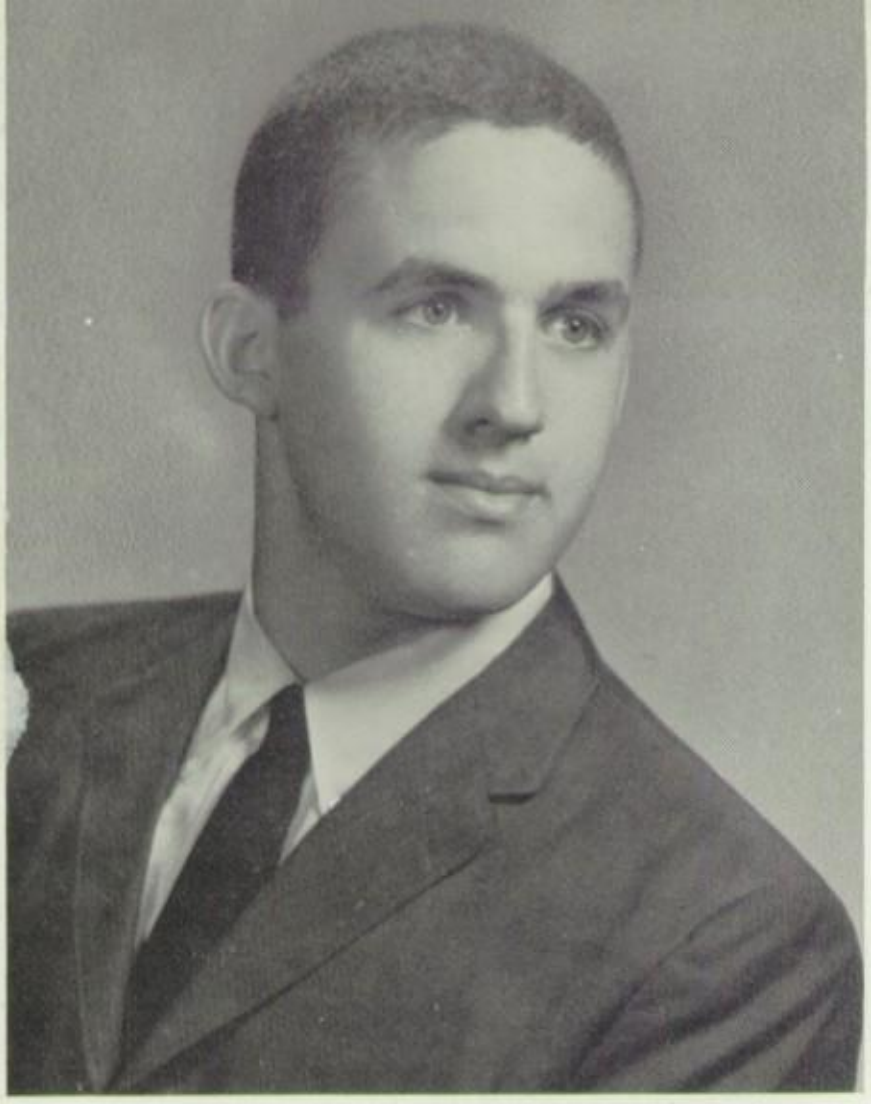
Chuck, or "Chicky," as he is known to most of us has been at the Academy for the past two and one-half years. During this time he has excelled as a wrestler and a fine athlete while keeping school spirit high. Outside of school, Chuck ravages the roads morning and afternoon in the "Chicky-mobile" and enjoys a tight schedule with someone special.

Furthermore, Chuck has the fine quality of being able to learn while he works and really having fun when he plays. This is evidenced by the fact that Chuck has stayed in senior study hall and continues to be a good student while having more than his share of good times.

If all people either had to be a Chief or an Indian, Chuck is certainly a Chief who can outfight, outwit, and outdo almost anyone, and if he ever meets his match he can probably outtalk him.

All of his outstanding qualities will surely be missed at N.A. when Chuck goes on to pre-med at UVA.





RONALD DONN

Ronald Donn has been going to the Norfolk Academy since the eighth grade, and through the years he has become an increasingly important member of the class of '62. Although Ronny is usually quiet and reserved in class, at times he can become very conspicuous through his quick wit and rousing humor. Many a time Ronald has broken the silence of senior studyhall with one of his facetious outbursts. However, the Sheik, as he is often called by his classmates is more often remembered by his schoolmates as the boy who is in the moth-eaten, one-size-too-small shirt and the tight football pants lining the field during football season.

When Ron's classmates wish to recall his character, they will remember not only his famous hook-slide into his desk just as the bell rings, but also his above average grades and his fighting spirit. Ronald Donn has added a vital part to the construction and the final product of the class of *'62*.

JOHN BOWMAN DINSMORE

Surprisingly enough, there is a quiet man in the class of '62. Surprising, that is, when one considers the loquacious nature of most of the class. John is this quiet man, but behind his placid exterior is an active mind that gets things done — eventually. It was once said of John that he is one of the few lazy people at the Academy who is actually proud of it.

He is, however, very active in the Episcopal Young Churchman being the treasurer for the Diocese of Southern Virginia. He also edited the *Orange and White* for 1962. In academic achievement, John has been an outstanding person, being consistently on the Honor Roll and a Merit Scholarship Finalist.

A quiet man who does much is always welcome so we are sure that John will fit well into college life. His future plans include UVA or perhaps Princeton.

ROBERT FORREST FOWLER, II

In the six years during which Bob has attended Norfolk Academy, he has developed into a serious-minded student and an enthusiastic, able athlete.

While maintaining a respectable scholastic average, Bob has managed to participate in varsity sports, earning three varsity letters. Our football, soccer, and track teams recevied the benefits of his athletic prowess again this year. Aside from school activities, Bob enjoys running his '59 M.G., dating, and water sports, including trick skiing.

As for future plans, the Virginia Military Institute and an engineering degree are first on Bob's agenda.

Everyone agrees that Bob is a man of amiable personality and social poise, one who will inevitably be a success in any future endeavors.

T.F.M.

JOHN FRANKLIN, III

John Franklin may be called the "Tank" on the football field, but he has a heart as big as the football he plays with. There seems to be no end to the things that John will do for his many friends and his unselfishness in doing so is amazing. He will do without, so that someone else will be happy.

John has been on the football team as long as any other senior, and has proven to be one of the toughest ball players we have ever had. Ask those who have played opposite him and they will verify this. John also has done much for our new wrestling team by pinning his share of opponents.

John has a way with people and a natural ability to make friends, and success seems inevitable for him in whatever he decides to do.

W.R.M.

JOHN FRANCIS GEORGE, III

Once a month, at 8:40 in the morning, the Academy parking lot is filled with a deafening roar. All seniors know that Frank George's turn to drive has once again arrived and the ungodly noise is issuing from his mufflerless Hillsman. All along the road from Ghent, there are slightly shaken drivers, for Frank has not quite perfected the art of studying at the wheel.

He usually spends his week-ends either racing Hydros, making quick trips to Lynchburg, or picking berries on Westover Ave. He is known by the class as one of its most well-rounded members, for he has all the best qualities of a playboy, a student, and a leader. In the latter category, he is secretary of the Senior Class, vice-president of the Monogram Club, and captain of the Soccer Team. Frank is well-known on the field and has lettered in both football and soccer. Our opposition will remember his sticky hands in the fall and deadly toe in the winter.

Frank plans to enter the University of Virginia next year, and we all know that he will be even more successful there than at the Academy.

R.L.J.

EDWARD JOHN HUXTABLE, JR.

John Huxtable has added much to the class of '62. His ready wit has more than made us see the humorous side of what previously appeared to be a catastrophic situation. John's four years at the Academy have been memorable ones for classmates and faculty alike. His "proof positive" of his Rube Goldberg theories in Physics have been a continual source of laughter for everyone in the class.

Someone has said that John does not like school, but that certainly cannot be true. Throughout his senior year he has conscientiously avoided athletics so that he could study during the late afternoon.

John should lend to the college he attends an atmosphere of good humor and fun. He is a valuable asset to any class.

ROBERT LUCIUS JORDAN

Four years ago the tranquil scene of Norfolk Academy was shaken by the arrival of Rob Jordan, boy-wonder of Blair Junior High School. Since this time, he has boosted not only the morale of his class, but that of his teachers as he explains his lack of homework, the mechanical workings of the W.B., and the events of preceding week-end, whether it was spent in Lynchburg or at NAS .

Rob has also made great contributions in football, in which he has lettered twice, and in soccer. The past year he held the office of president of the Careers Club and he was personally responsible for creating a new school organization, the NA Bar Association.

Rob's great personality and pep made him a real asset to his class and insure great success for a future in the Navy, and I hope he can find a Naval Academy professor who will be as understanding as Mr. Harvie.

ROBERT PALMER KAHN

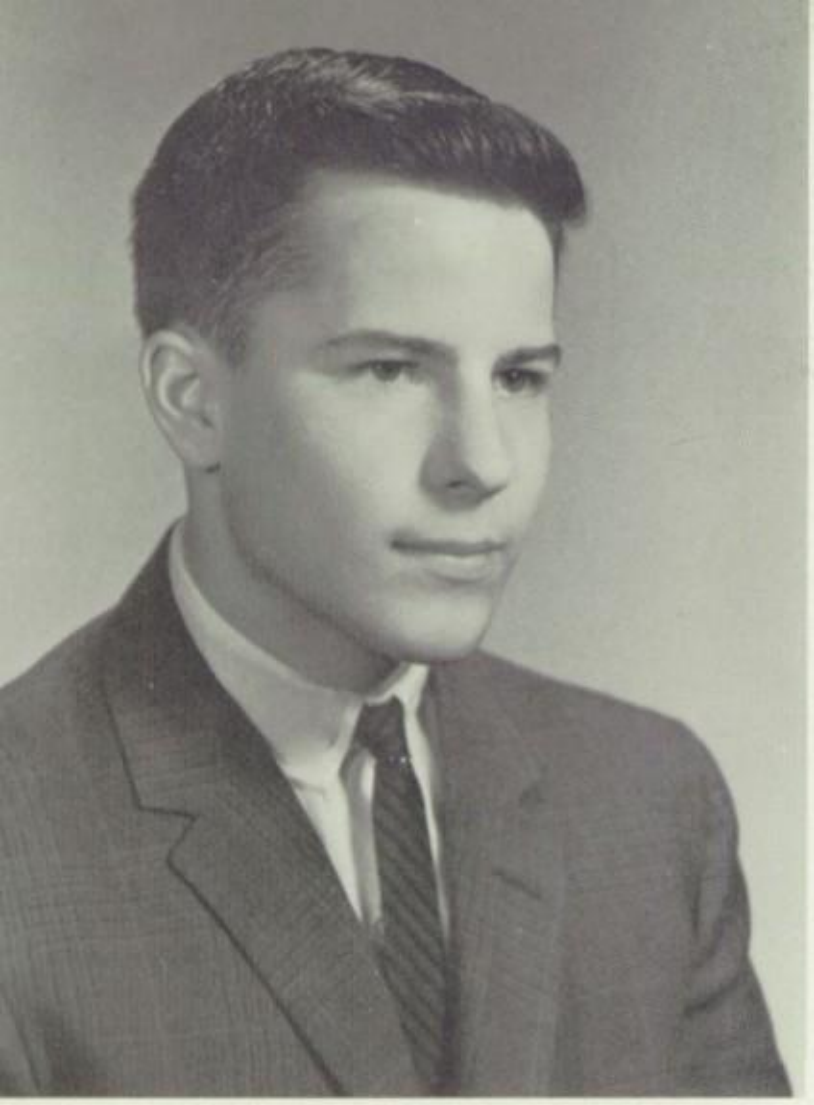
Bob is one of the friendliest seniors that the Academy has seen in quite a while. To find him, just plunge into any jovial group and it is certain that he will be in the center. His ready wit is always noticeable, even after trig class.

Bob is a hard worker on the athletic field, being a tackle on the football team and a fullback on the soccer squad. Bob's achievements spread outside the school, also. For example, how many seniors are there who are constantly visited by girls on the school grounds?

Being able to take responsibilities, Bob is the photography editor of the annual, a member of the business staff, and active in several outside activities.

Bob plans to enter law. We are sure that no matter where he goes to college, he will be a success because he is a genuine hard worker.

J.B.M.



JOHN RANDOLPH KIGHT, JR.

Skip's character consists of many good qualities. The most admirable of these qualities is Skip's great determination to succeed at whatever he endeavors, regardless of the odds. In spite of his size he has contributed as much as, if not more than, any man on the football team. This determination follows Skip in his scholastic endeavors as well as his extra-curricular activities in that Skip will stick with something until he masters it. Skip's good-naturedness has acquired for him many loyal friends in his eleven long years at good old "N.A." Through a long period of trial and error Skip has acquired an outstanding sense of good judgement which is respected by all of his friends. With these and many other good characteristics, Skip's success in later life is inevitable.

J.F.

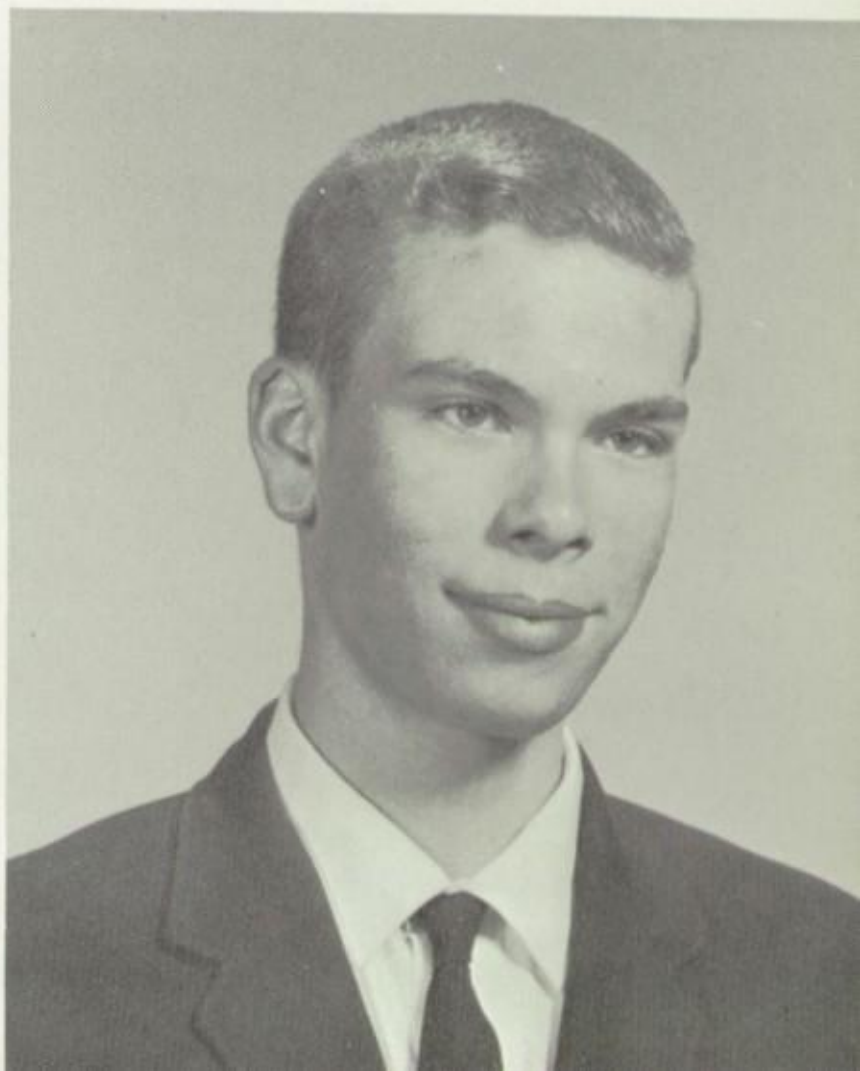
JOHN BLACK LANCASTER, JR.

". . . So you see, when this goes from valence 13 to valence 2 — Blooey!!" This is the voice of J. Lancaster, archfiend of the Norfolk Academy. Chemistry seems to be Jack's favorite subject, and despite the ribbing he gets, he takes it all in good stride. He is also noted for his practical jokes such as the time he attempted to asphyxiate the entire senior class. Ha! Ha!

However, despite his practical jokes about chemistry, he has done much to enlighten the senior class, and several juniors, whom he has tutored. Also, he is an active member of the Science Club and Careers Club. With his interests in, and theories concerning chemistry, he should certainly prove an interesting specimen of humanity for his professors at the University of Virginia.

Best of luck to you Jack — you'll go far.

A.L.S.



JAMES BUCKNER MASSEY, III

Jay has contributed a great deal to this year's senior class. He has been active, and excelled both on the athletic field and in the classroom. "Jay bird" is one of the earliest members of the class of '62, having attended the Academy since the second grade.

Jay is the only flyer in the class, and his tales of his experiences in this field and his aviation magazines have been invaluable to senior study hall. Jay has been a member of and has contributed much to the football, soccer, and baseball teams. He is a steady worker, taking a great deal of interest in his work, and is a very amiable person.

Jay's leaving the Academy will leave a space in the school which is not easy to fill. We feel assured, however, that Jay will be a success in any field he enters.

R.K.

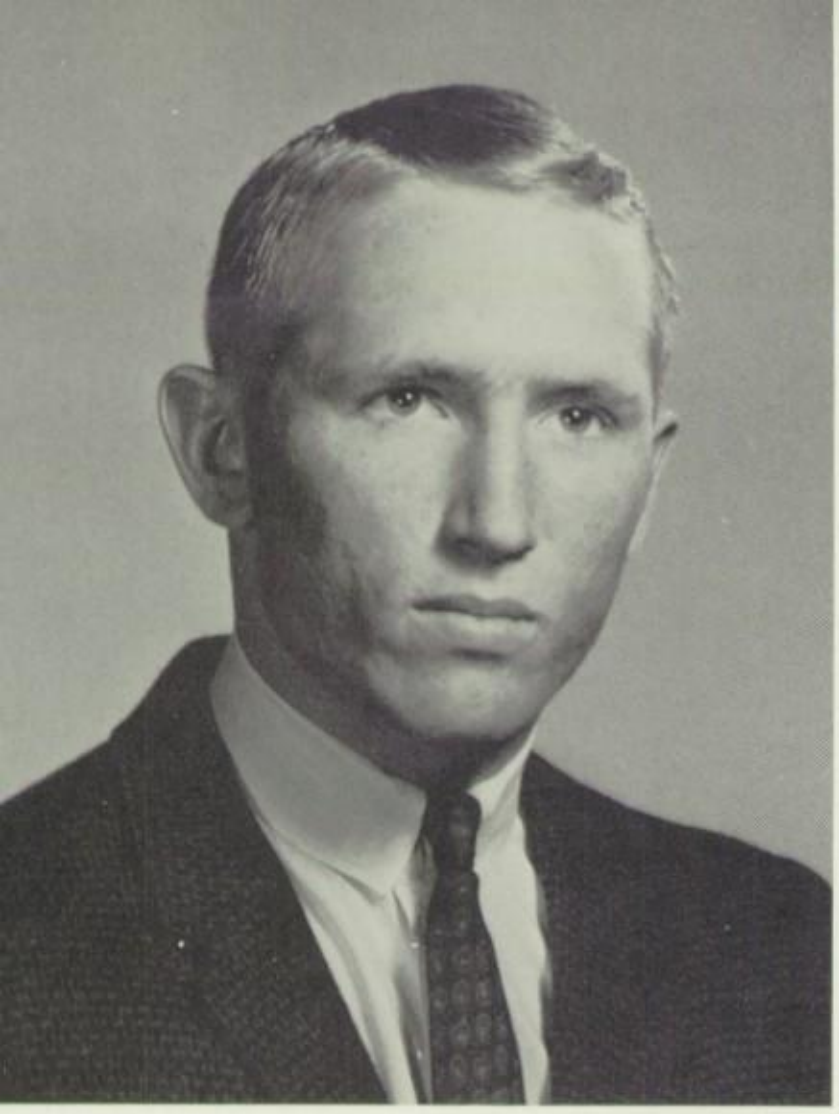
THOMAS FORD MAXWELL, JR.

Every morning during second period trig class, the famous cry of "Rabbit" Maxwell can be heard: "Ah, come on Mr. Vulgan, BE reasonable!" "Rabbit," however, is not only recognized for his clashes with Mr. Vulgan, but also for his continual disgust with his car pool. Nearly every morning he can be heard saying: "If you guys don't get here on time, I'll quit."

Four years ago our "Hare" decided to honor the Academy with his presence; fortunately for the Bulldogs, we have had his continual assistance in athletics. "Max" can be seen year-round either on an end sweep in football, or kicking a fantastic goal in soccer, or even overthrowing first base in baseball. Because of this extensive participation in sports, "Rabbit" is a member of the Monogram Club.

This June the Academy will be dealt a severe blow as Tom will graduate; however, in September of the same year the University of Virginia will be more than honored when he and his '53 light green Ford drive onto campus. After college, Tom plans to be a lawyer, thereby putting to use his strongest trait: arguing. The rest of his fellow classmates feel assured that Tom's goals in life will easily be fulfilled and their best wishes go with him.

R.F.F.,II



WILLIAM ROLAND MILLER, III

Last fall a group of N.A. boys happened to be dove hunting in a corn field in lower Princess Anne County. Among this group was that proud Viking, Bill Miller. Often an echoing boom was heard and an enormous cloud of smoke rose above Bill. Bill, a sportsman to no end, was shooting his percussion cap Civil War musket. His bag for that day was small, but his pride was great.

Bill has been a tremendous asset to the Academy. When he leaves the School, he should leave a much better place of learning, for if he ever saw something wrong with a policy of the School, he fought until the policy was changed. He is a strong supporter of his beliefs.

Besides being the most Viking-looking boy on the football team, Bill is the toughest. He is one of the fathers of the wrestling team and the pole-vaulter of the track team. Bill's position as president of the Monogram Club illustrates his ability and love of athletics.

M.C.T.

JOHN EDWARD MORTENSEN, JR.

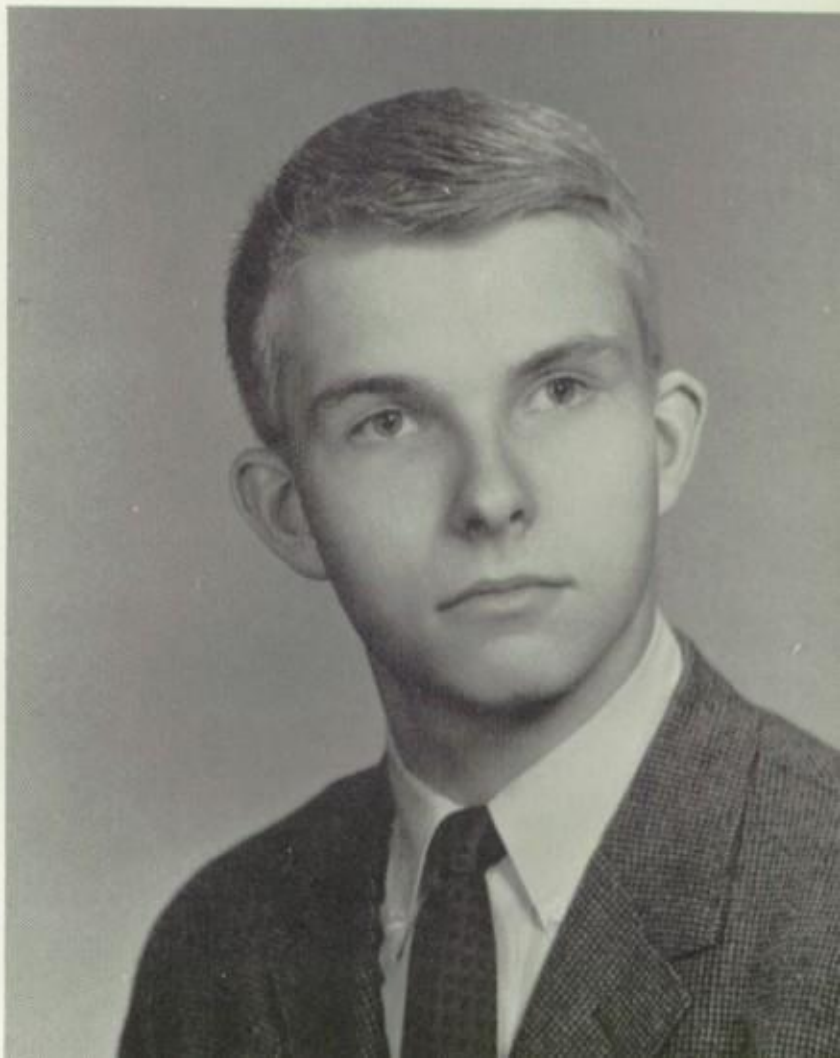
A hunched figure moves rapidly along the senior coat rack. An underclassman stealing pencils? Another lethargic senior? Perhaps it's a goodly gremlin shining buttons. No, it's only John Mortensen checking coat labels — his favorite pastime. If any unfortunate senior should be caught with a jacket from any unapproved store, John would be sure to reprimand him thoroughly.

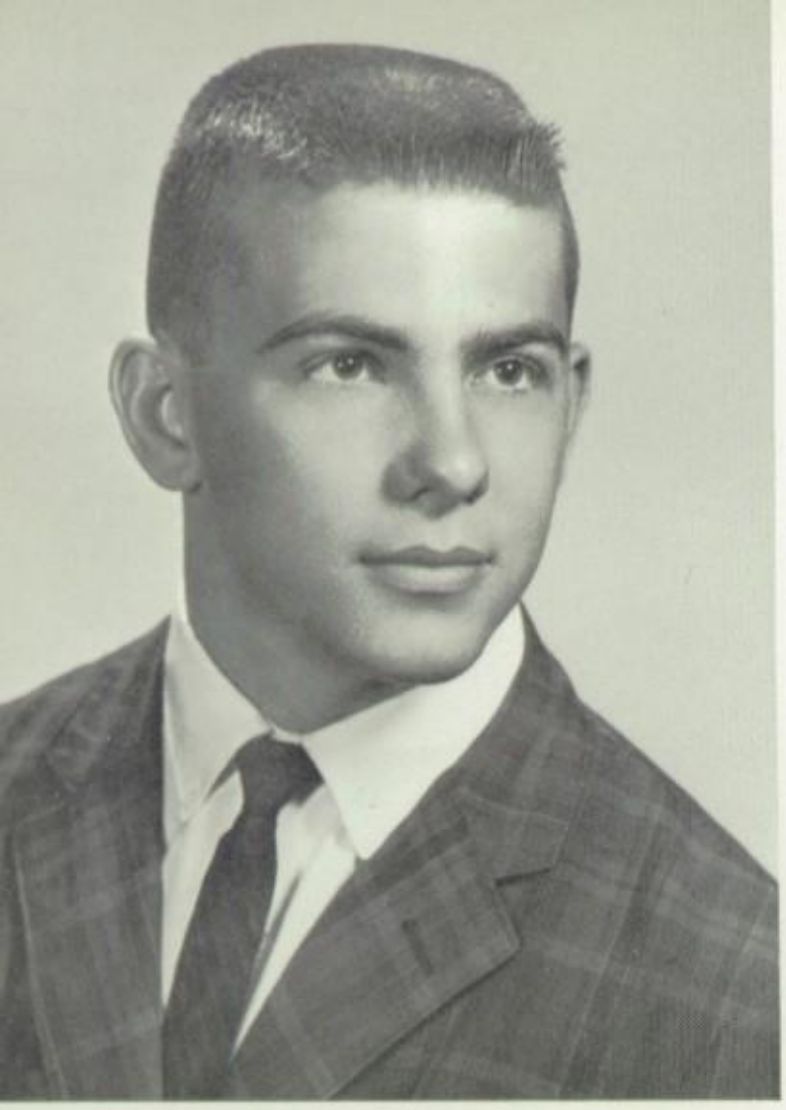
Besides status seeking, John studies art, literature, and music. So competent is he in these fields, that he is quite contemptuous of those whose knowledge of the humanities does not meet his rigid standards.

John could not exactly be considered well-rounded, although he can certainly speak with authority on any subject. While his uninterest in exact sciences has led to only mediocre grades in chemistry, physics, and trig., John excels in all other fields of study.

In a class composed primarily of "average" people, John's intellectualism makes him one of the few outstanding people in the class. It is quite refreshing to be able to know one person, at least, with exceptional abilities.

J.B.B.





LEE DESALES NELSON

Lee, during the past few years, has been an active member of the Monogram Club and the Science Club. He is on the drink committee of the Science Club, is on the literary staff of the annual where he is sports editor, and is on the Executive Committee of the Careers Club. The athletic department is not deprived of Lee's talents: he is on the varsity football team, and during the winter he wrestles. Spring finds him running 100-220 yard dash on the track team. Lee excels in these sports as well as in academic subjects. Along with several other members of the senior class, he is a charter member of the newly-formed bar association, better known as the mug club.

Lee intends to go to Washington and Lee for pre-med training and has hopes of becoming a neuro-surgeon.

Even if Lee does not become a "Brainwasher," as he hopes, we all know that he will succeed in whatever he attempts.

P.P.

PHILIP BROWER PARSONS, JR.

A husky form moves across the parking lot, jumps into a '60 Olds, and squeals off the school grounds. This is Phil Parsons, hustling home after another profitable (?) day at N.A. The speedy departure is accompanied by comments to the effect that he does not like to linger at his alma mater when not required to do so. However, this theory must be unfounded because Phil has never bothered to answer it.

Actually, Phil is interested in sports, — participating in three varsity sports — is a member of the Careers Club and the Science Club. Due to his driving enthusiasm and his stick-to-itness attitude, even when faced with overwhelming odds, Philip always manages to come out ahead, and we are sure that he will succeed in whatever profession he chooses, after attending Duke University.

L.D.N.

MICHAEL WAYNE PRICE

Wayne, or "Leanie" as Mr. Cumiskey dubbed him, is one of those boys at the Academy who has been here longer than many of the teachers. In his nine years at the Academy, Wayne has developed several philosophies which have been called everything from extremist to conservative. Whether or not his thoughts are as sound as he would like to believe is doubtful but it is refreshing to find a person who has some opinion on almost every subject.

Wayne's interest in a wide variety of fields is indicated by his activities in such organizations as the Annual Staff (Business mgr.), the Science Club (secretary) and Careers Club (secretary). Although Wayne's athletic endeavors are somewhat limited by a bad foot, he has taken part in the sports which do not involve running such as golf and wrestling, having lettered in the latter.

We feel sure that Wayne's personality and talents will make him a success wherever he goes.

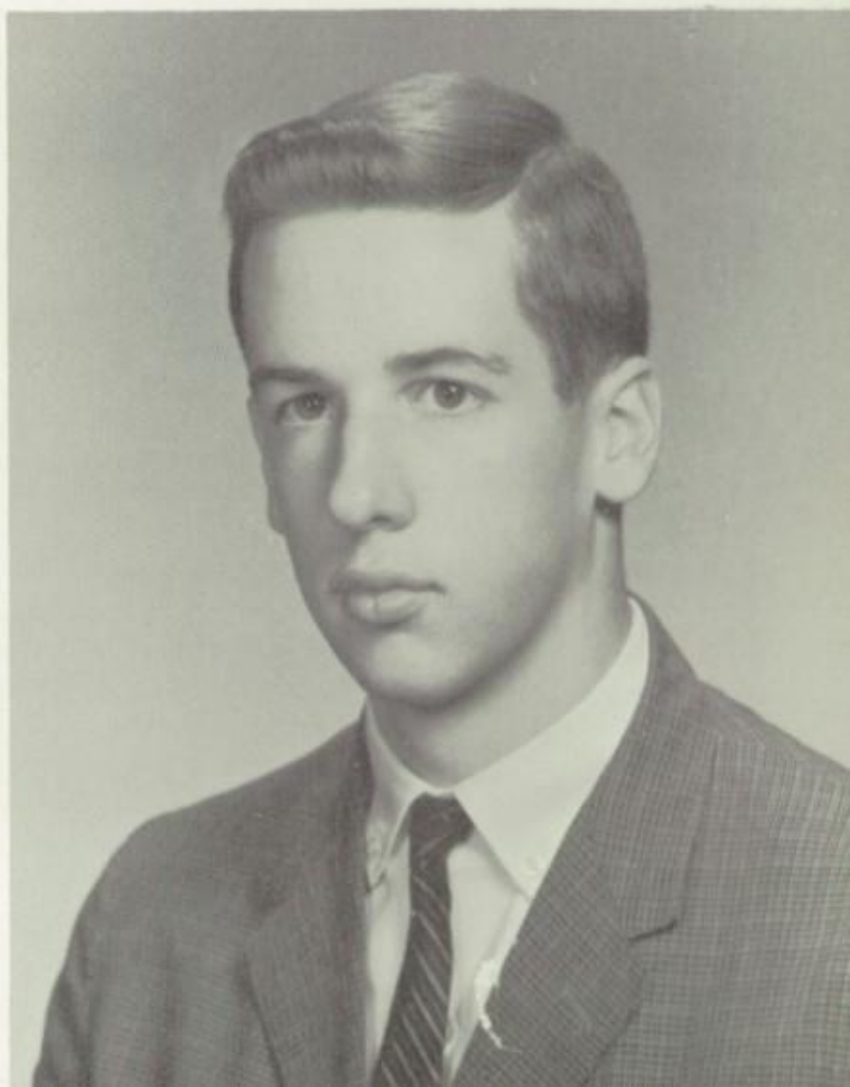
HUNTER RIPLEY RAWLINGS III

Hunt is the senior whom no one has trouble finding in a crowd. First of all, "Runt," as this 6'5" lad has been called, seems to be standing while everyone talking with him is kneeling. Having heard more than once the expressions "Hi, Shorty" and "How's the weather up there?" Hunt now only smiles with pride when he hears them, knowing that he has to look up to nobody.

Hunt is not only the stand-out because of his stature, but he is also noticeable because of his many fine qualities as an individual. Although he is not noted for great speed when it comes to running, he has been a great asset to the football, basketball, and baseball teams.

The grade-average chart always shows Hunt at the top of the class academically. He has long been recognized as one of the smartest and most industrious members of the class.

Besides being a good student and an excellent athlete, Hunt is a fine person. One of the most even-tempered boys in the class, he always has a good word for everyone and a consideration for others that makes him well-liked. Hunt is clearly a stand-out in many ways in the class, but he will probably be most remembered for what he is — a good friend to everyone.



STEPHEN ALAN SCHECHNER

The three things that are certain since "Shek" entered the Academy two years ago, are death, taxes, and his high grades. Everyday, he prodigiously goes over the reasons why his average isn't higher (although he has one of the highest averages in the school). When he isn't studying, he uses his time to teach Hebrew and music, or to perfect his current science project. (He finished fourth in the State Science Fair last year.) With this background it isn't surprising that he became a semi-finalist in the National Merit Scholarship contest. However, "Shek" is unique, for he not only spends time on academic subjects, but tries his hand at baseball, soccer, and tennis as well. We are certain that Steve's amibition to become a doctor will be successfully fulfilled wherever he attends college.

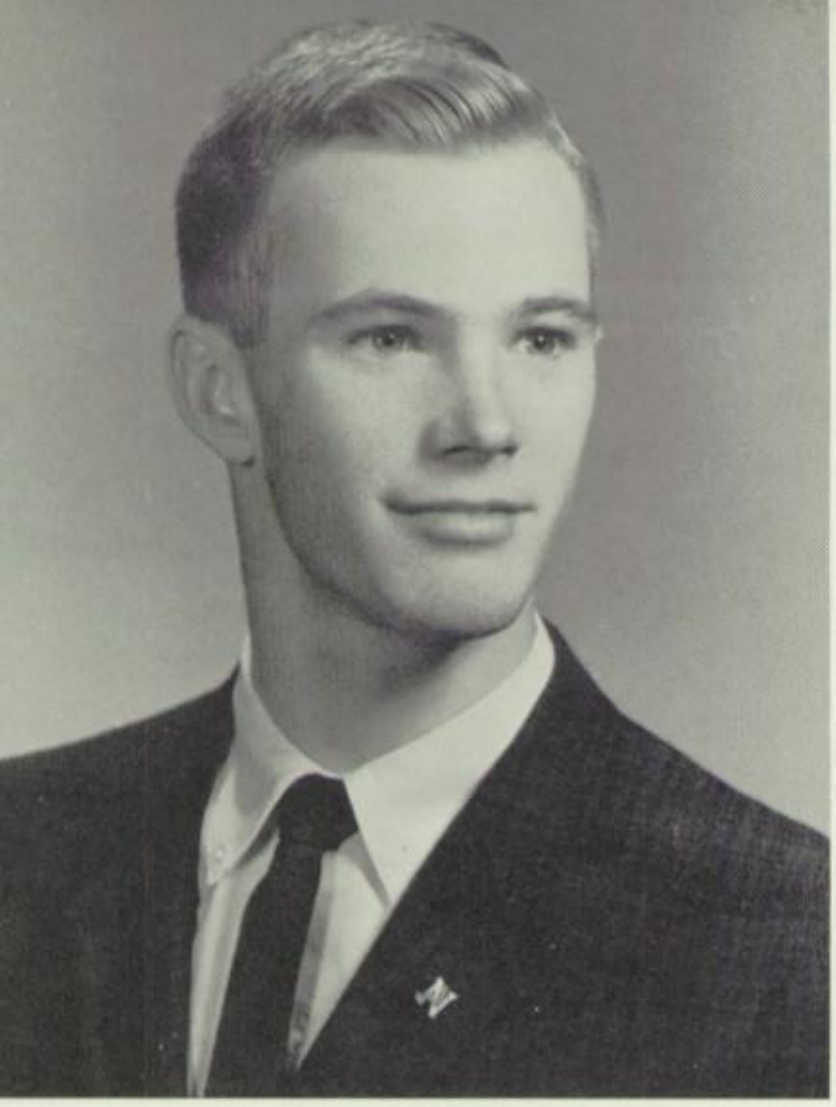
W.H.W.

HERBERT LEE SEBREN

Contrary to what anyone might think, the Third Year French course doesn't start until 9:15, because this is the time that Herb usually manages to stroll into class. Herbie may not be in class very long, but little gets by him, except perhaps the formation of a few irregular French verbs.

Herbie's grades, however, are known to be quite good since he is a constant member of Senior Study Hall, and since he usually manages to make the Honor Roll. The athletic department has not been deprived of his talents, for he has lettered twice in football, and is one of the main players on both the basketball and baseball teams.

Herb has been a fine athlete and a fine addition to our senior class, and we are sure that he will have the utmost success whatever college he chooses to attend.



JOHN GREATON SELLERS, JR.

John Sellers wasn't given the name "Lightning" for nothing — he is lightning quick to avoid great (or small) exertions. He is also speedy in getting out of football practice and into the parking lot in the afternoon.

John is very active in school life, belonging to the Key Club and the Monogram Club. A very capable student, John's college plans are directed to Duke University, a part of the family tradition. At Duke, John hopes to earn an M.D. and follow the profession of his father. In this endeavor, we wish him the success we feel he deserves.

— O.R.C. —

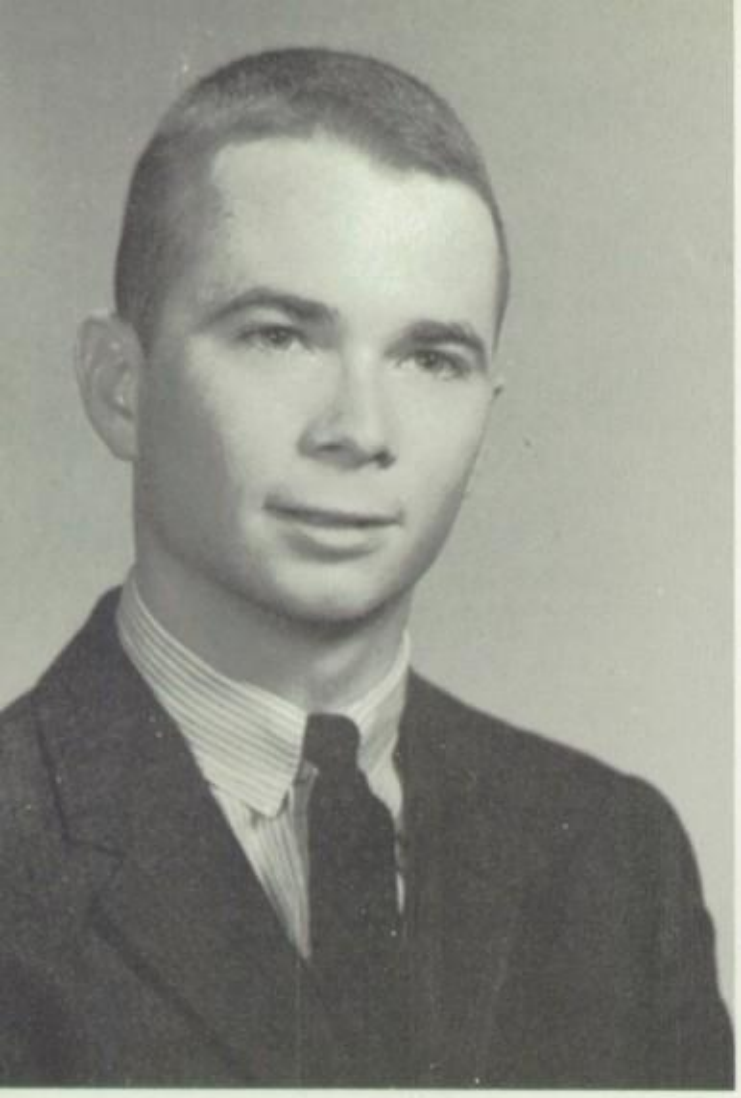
LOUIS STICKLES

"The speed of light is 186,000 miles per second," says Mr. Jones to his fifth period physics class. Immediately an indignant student in the first row pops up with, "But it's relative, I say!" On inspection, we find that the speaker is none other than Louis Stickles.

Louis takes part in almost every activity with zeal and interest. He is considered the backbone of the Glee Club and has done outstanding art work for the *Belfry*. In the athletic field, Lou's favorite is track. One day we hope to read of his breaking the world miler's record.

Lou will attend a college in Virginia, where we feel sure that his many interests and talents will earn him the respect and popularity of all those who know him.

— M.W.P. —



RICHARD PARRISH TARRALL

"Little Richard" is one of the most studious and industrious boys in the class of 1962. He can be depended on by master and student alike to carry out any task with diligence. A perennial member of senior study hall, Richard has maintained a respectable average throughout his years at the Academy.

Richard participates in many school clubs and activities. He is a member of the Monogram and Science Clubs, Vice-president of the Career's Club, and supporter of the newly formed chapter of the Klan.

On the athletic field Richard is not to be hindered by his small stature. He has lettered twice in tennis and been a member of the wrestling team for two years.

Richard will presumably take his many talents and well-known southern drawl to Virginia Military Institute. He will surely do well in whatever field of endeavor he pursues.

M.W.P.

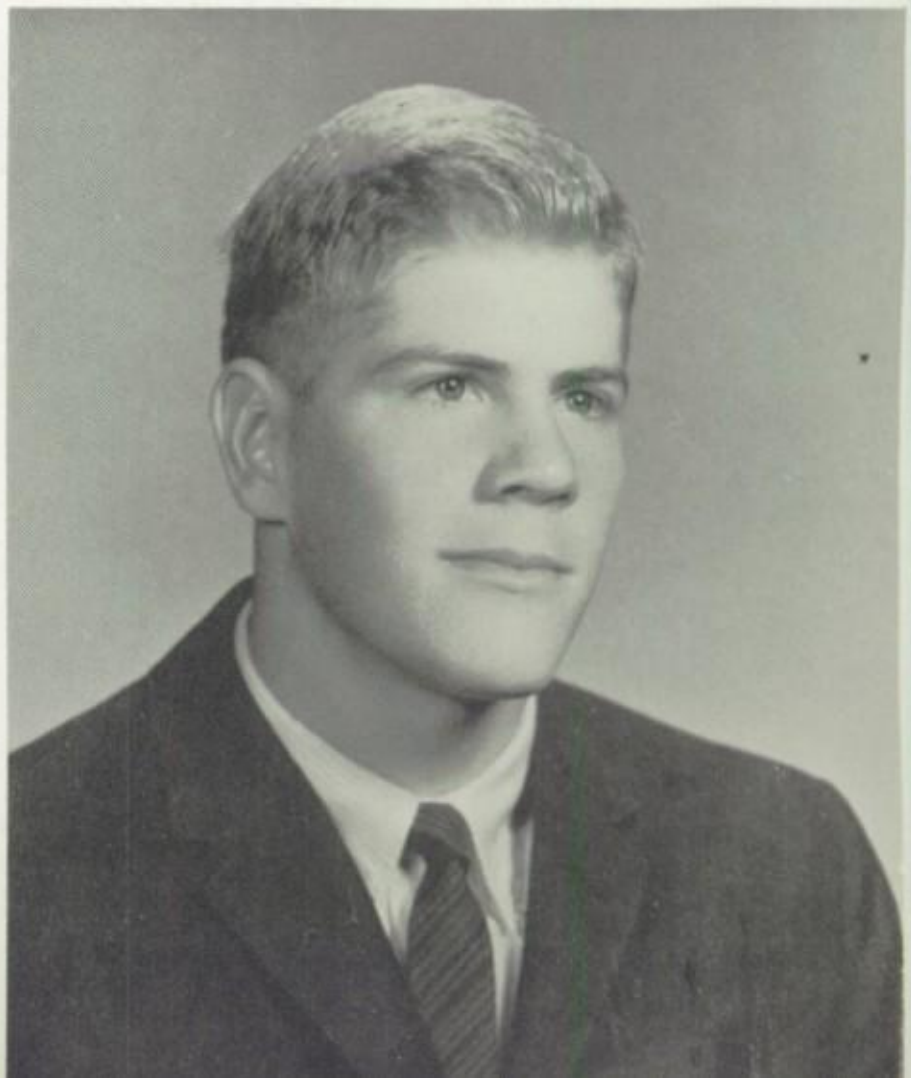
MARSHALL CARNEY TAYLOR

Anyone who knows Marshall will say that he has a certain quality in his character which makes him an unselfish leader. This quality can probably be best summed up in one word — responsibility. Whatever Marshall does, he goes about it in a mature and objective manner, and because of this he has been a sobering influence on others as well as an unqualified success in his many activities.

At home, Marshall is a diligent worker and outdoorsman. Whether he is working for a construction company or his parents, he takes pains to see that the job is done well. The bulkhead he built by himself at his house on the Lynnhaven River is testimony to his thoroughness. He loves to hunt and spends every available Saturday during the various seasons in the field or woods.

Because of his realistic outlook on life, Marshall will succeed in whatever he attempts.

W.M.



JOHN McLEOD TURNER

John "Snooks" "T-Bird" Turner, pride of Virginia Beach, and surfboarder, is leaving the Norfolk Academy after five "glorious" years. During this time "Snooks" has made many friends and has become known to all. Being athletically inclined, "T-Bird" has lettered in Varsity Football, Basketball, and Track. This year he is Co-captain of the football team and is fulfilling his job at end with great success. John is also Secretary-Treasurer of the Monogram Club and a member of the Careers Club. "Snooks" has somehow acquired the talent of being the object of everyone's jibes. A typical day finds "T-Bird" strolling down the hall in his torn and tattered sport coat looking for his carefully hidden tie or trying to separate his books which have been glued together by someone. But John takes kidding good-naturedly and thus is very popular around the school. I haven't the slightest idea what he will do when he leaves here, but I send my best wishes to good old "T-Bird."

WILLIAM HARRILL WITHROW, JR.

Outwardly, Bill looks like an ordinary guy. He's not the type that stands out in the crowd. However, in this case, looks are deceiving, for his actions and accomplishments certainly prove him extraordinary. He received a Certificate of Merit from the National Merit Scholarship Corporation and has been on the first string baseball team for two years. Coming from a long line of politicians, he is widely known for his speeches where he pounds his fists on the table. He is the most travelled person in the Senior Class, having visited twenty-six foreign countries. The cultures encountered during these travels are clearly evident in Bill's everyday actions. Bill likes to think of himself as a "Casanova," though he won't admit it. He enjoys recalling the day of the "U. Va." episode. Bill has a natural leaning towards a career in the Foreign Service. We feel that he will be tremendously successful in this field.

ERNEST ELMER WOODEN, III

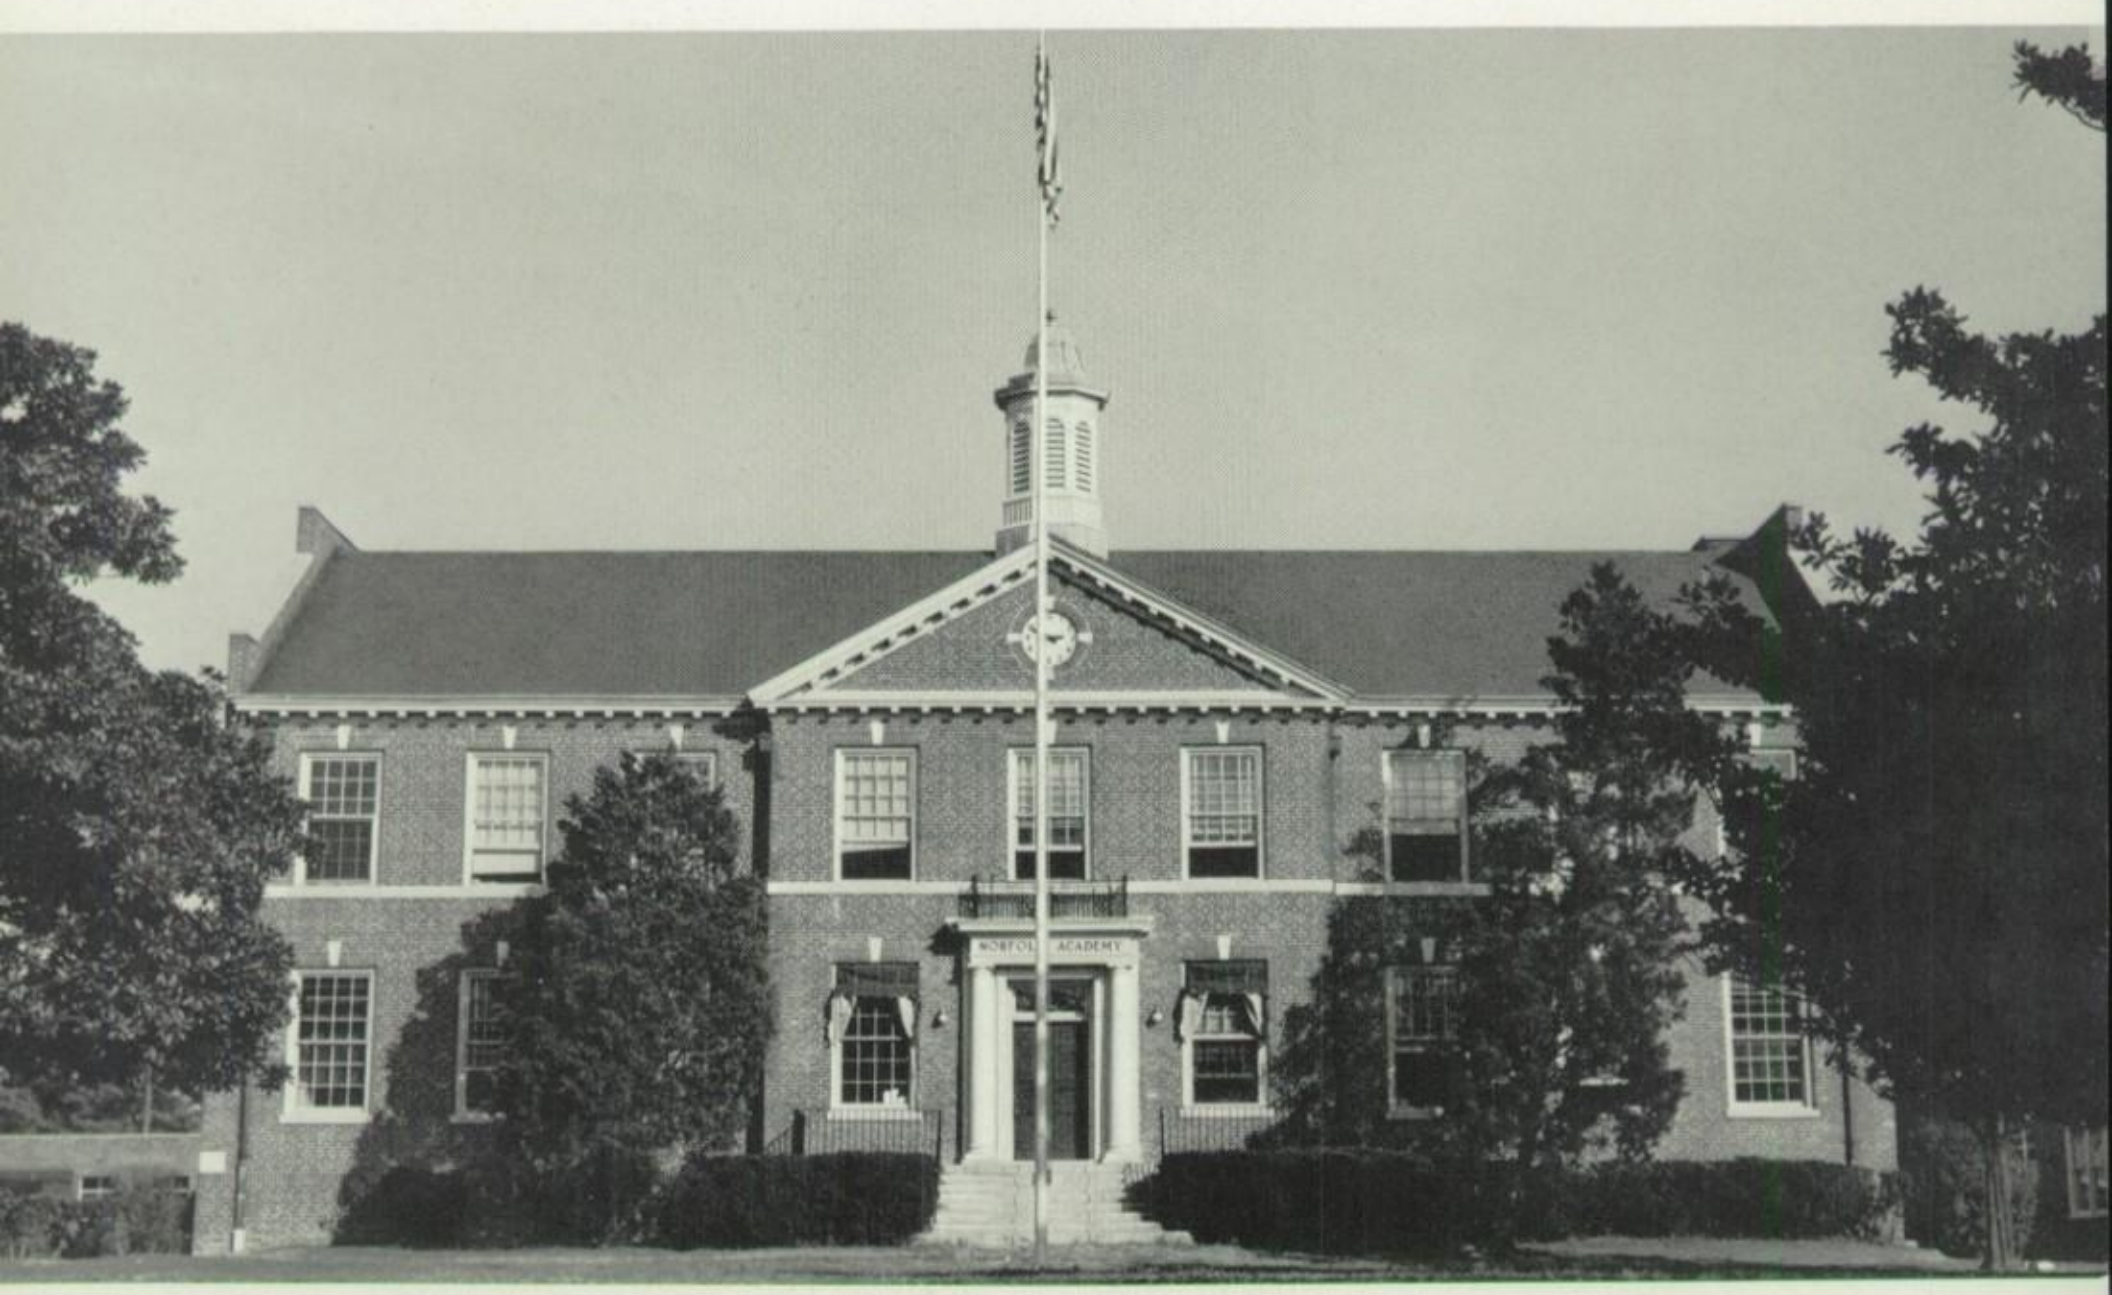
Since Sunny Wooden came to the Academy in the second grade, he has risen higher and higher in the esteem of his classmates, as is evidenced by the fact that he is the Vice-President of the Senior Class and President of the Key Club. He has been elected to these positions because of his politeness and good sense, which are displayed wherever he goes.

Besides holding these positions, Sunny is prominent on the athletic field and in the classroom. Overcoming an injury to his knee, he has played on the varsity baseball team for three years, and was the extra point specialist for the football team, which has benefited from his accurate place-kicking.

In his studies, Sunny always gets the job done even though he can often be found taking part in an argument in Senior Study Hall. The honor roll is an annual thing for Elmer, because he puts his school work above everything else.

Sunny is set upon being a dentist, and if you ask any Senior, you will find that he will agree with me in saying that Sunny will certainly achieve this goal, and many others during his life. We all know that his good qualities will put him in a high place in the world, and he will leave a good impression on everyone with whom he comes in contact.

H.R.R., III



MINUTES OF CLASS OF '62 REUNION, JUNE 3, 1982.

The Class of '62 recently held its twentieth reunion after the twentieth successful trounce over Catholic for the annual Homecoming game. The reason it was decided to have such a special affair after 20 years was that back in '62, Mr. Massey, with his sly grin, kept pondering the question of whether any of us would amount to something in twenty years. Naturally, all of us have. It seems that abnormally great heights have been reached by many of our class, especially in the field of big business.

The first to arrive at the reunion were John Huxtable and Bob Fowler, chief executives of the Huxta-Fowl Corp., manufacturers of the famous Huxamobile 12, world's fastest car. Bob, incidentally, is in charge of the design and manufacturing of the roof of the Huxamobile.

The next arrivals represented the medical world. Dr. Steve Schechner, noted heart specialist; Dr. John Sellers, famed ear specialist; and Dr. Lee Nelson, neurosurgeon, walked in, avidly interested in something they were discussing. Lee brought along a friend — name was Ben Casey, or something like that.

No one missed the next entrance. Big Hunt Rawlings towered over everyone. Hunt has accomplished something not many people do. In the fall, he is a scout for L.S.U. In the winter, center for the Minneapolis Lakers, and in the spring and summer, ace relief pitcher for the Baltimore Orioles. We sincerely hope that Hunt had nothing to do with the Orioles' 35-game losing streak last season.

Next to arrive were those celebrated attorneys Bob Kahn, Bob Culpepper, and Ronnie Donn, of the firm of Kahn, Culpepper, and Shiek, Inc. The two Bobs are at this time defending John Dinsmore, editor of the New York *Times*, in a spectacular libel and slander suit. John couldn't be with us because he seems to be vacationing in Argentina or somewhere. "Abdul" Donn, at this time, is representing the Braun-Withrow Chemical (Petroleum) Engineering Co. in Saudi-Arabia.

Next through the door, involved in a heated argument, strode Adm. Bob Cole and Adm. Rob Jordan. Rob seemed to be in favor of retaining airplanes in the Navy, while Bob wanted to re-activate all the battleships. Bob has always been a staunch supporter of battleships. Incidentally, he has just been transferred to command a repair ship iced up in Antarctica.

We were graced with the presence of Jack Lancaster and Phil Parsons. Jack, electronic computer wizard, and Phil, famed author of several trigonometry books, have combined their talents and invented an automatic six-place trig table interpolater, especially designed for Herb Sebren, who even now cannot interpolate correctly.

After the party had gotten well under way, in strode Marshall Taylor and Johnny Sellers. Peculiar as it may seem, these two are the only members of the Class of '62 who haven't married.

The most spectacular entrance of the night was made by John Mortensen, that international playboy. John had to hire the Norfolk Police Force to keep all his female admirers from following him into the party, which, if you haven't guessed, was stag only.

The highlight of the night came when Chuck Davis, alias Chickie Charlie that renowned nightclub entertainer, distributed copies of his latest album, "Selected Pep-Rally Cheers," to everyone present.

Members of the '61 football team were saddened to hear that John Franklin, successor to Big Daddy Lipscomb, was unable to be with us due to an unfortunate accident. John, after 14 years in the National Football League, wrote a book, *"How to Play Dirty Football and Get Away With It."* John is a victim of his own medicine as he had seven of his upper bridge teeth knocked out last week when he ran into the fist of John Turner, another Academy football star made good. Franklin is currently having extensive dental work done by a leading American orthodontist, Sunny Wooden.

We were all rather startled at a peculiar noise outside, and there was a mad scramble for the door. The commotion, however, turned out only to be Jay Massey landing his latest invention, an airplane powered by a perpetual motion engine which uses no fuel. Jay is the president of Massey Aeroplane Industries, a booming concern out on the West Coast.

Before anyone could get back inside, a large parade passed on the street. The parade was an anti-Federalist parade led by Bill Miller and Gill Brockenbrough, leaders of the increasingly powerful Secessionist Party. As it was getting late, we went back inside to finish out the meeting with some refreshments plus a notice of a special attraction to come tomorrow. We will all go to see the new Academy plant, which should be something as it was designed by Frank George an architect. After a vote of thanks to City Manager Tom Maxwell for letting us use the City's auditorium, we adjourned.

Respectfully Submitted,

W.S., Class of 1616

LAST WILLS AND TESTAMENTS

I, John Blackford, leave all my Communist literature and one gross of *I Like Lenin* buttons to any junior willing to take up the cause.

I, Richard Braun, leave my prized place on the bench during football season to Wayne Bowman.

I, Gill Brockenbrough, being of sound and conservative mind, do hereby leave to the future editors of the *Belfry* 462 pro-Southern Civil War articles and 644 rightist editorials for future publications.

I, Bob Cole leave a bucket of midnight oil to any junior as slow starting on his homework as I am.

I, Chuck Davis, leave to any needy student the quickest exit out of the Academy.

I, John Dinsmore, leave the annual staff in chaos.

I, Ronald Donn, leave to Mr. Vulgan the perseverance to bring back students on Saturday who have other important obligations for the same day.

I, Bob Fowler, leave to Mr. Vulgan a new year-round Halloween mask preferably *not* of a rodent.

I, John Franklin, "Who's Leaving?"

I, Frank George, leave to Mr. Vulgan a small pumpkin patch in hopes that the Great Pumpkin will visit next Halloween.

I, John Huxtable, affectionately leave a standing invitation to all bachelor N.A. teachers (including Mr. Harvie when he realizes his mistake) to all raft parties.

I, Rob Jordan, leave 180½ unfinished Trig homeworks to any junior who thinks he can finish them in first period study hall and to Mr. Vulgan, a list of the nine out of ten Trig teachers who are psychologically unbalanced.

I, Jay Massey, leave the only remaining *Super Cub* in Norfolk to Mr. Harvie; I bet he can't bounce it as many times as I can and I dare him to try.

I, Tommy Maxwell, leave to Mr. Vulgan a lucky rabbit's foot to protect him from future Trig Students.

I, Bill Miller, leave my ugly brother a wonderful reputation to live up to.

I, John Mortensen, would have left my complete collection of labels to some junior if I could have found one worthy of this great trust.

I, Lee Nelson, being completely insane after five years at the Academy, leave the afflictions, woes and sorrows of Mr. Vulgan's Trig class to all upcoming juniors.

I, Phil Parsons, leave my trigonometric disinterest to any other mechanically-minded boy.

I, Hunt Rawlings, leave my eighteen seconds around the bases to Bitsy Grant, who, I am sure, will uphold the record.

I, Steve Schechner, leave a pound of hair to Doc, who really needs it, and a pound of flesh to Wayne Bowman.

I, Herb Sebren, leave my brother George my size thirteen shoes so he will be able to kick the pigskin out of the end-zone.

I, John Sellers, leave a year's supply of footpowder, shaving cream, Nixon stickers to any junior crazy enough to raid Mr. Babcock on Halloween.

I, Louis Stickles, leave my dolphin (Tursiops Truncatus) to Doc along with my pamphlet, "Be Your own Creator." I do further bequeath my collection of choice songs in English and French to the chorus especially Wayne Bowman.

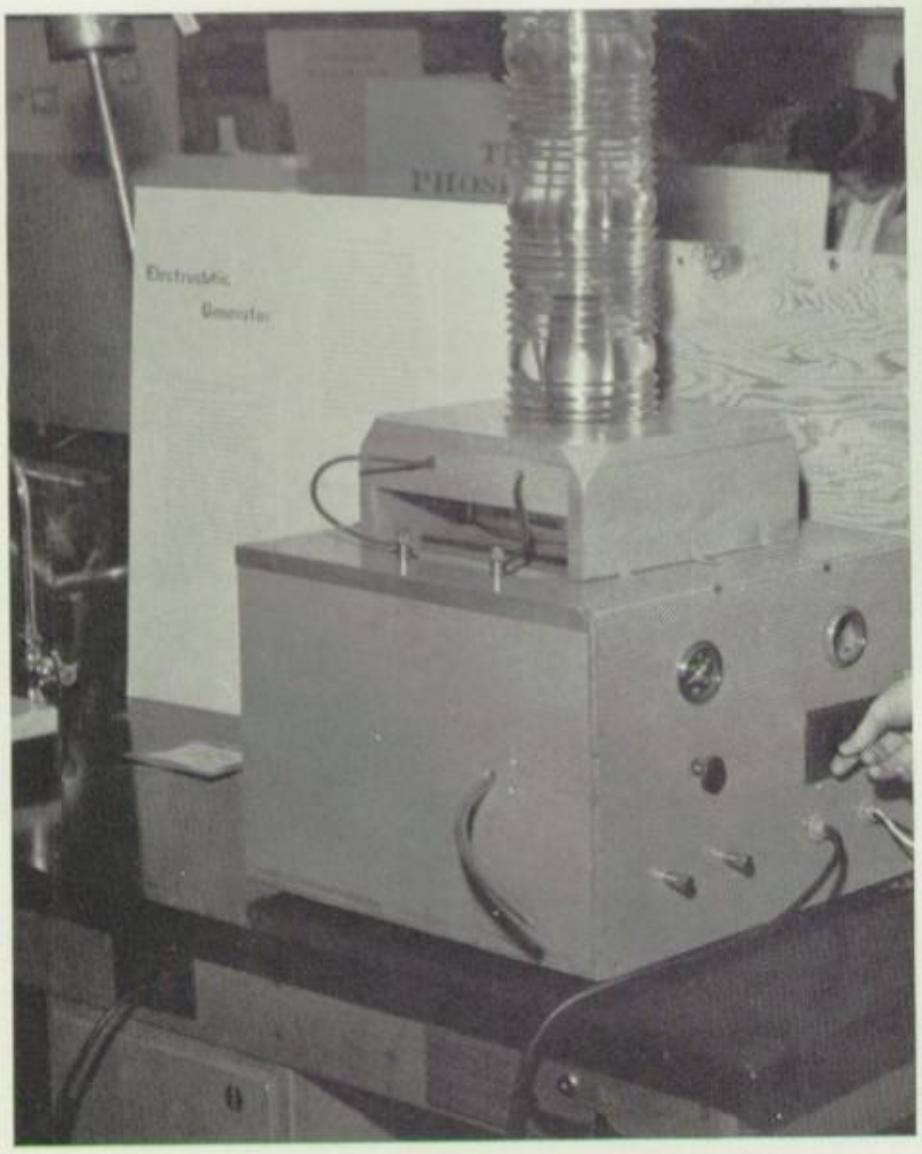
I, Richard Tarrall, leave to Mr. Tucker and Mr. Harvie my great height to be equally divided between them.

I, John Turner, leave Mr. Jones a two-months supply of tape that I saved during football season.

I, Marshall Taylor, leave Great Neck Point but will return often — warning to all encroachers!

I, Bill Withrow, being a complete self-indulger refuse to leave anything to any one.

I, Sunny Wooden, do hereby bequeath, because of alphabetical order, the distinction I have of being last in everything in the senior class to Dubby Wynne.



Doc's Replacement

I think I've found the leak, Al, do you have the patching kit.

THE STUDENT COUNCIL

The Student Council is an organization composed of the officers of the upper five forms of the Upper School and its faculty advisor, Mr. Tucker. The officers of the sixth form serve as the officers of the Council with the president of the sixth form presiding over the Council.

It is the duty of the Student Council to represent the Student Body in the school administration, and to help the faculty with school activities.

The Academy surely owes the Student Council a debt of gratitude for their fine job of student government.

THE KEY CLUB

The Key Club is a high school service organization sponsored by the Kiwanis Club. One of many such clubs in the area, the Norfolk Academy Key Club is sponsored by the suburban Kiwanis Club of Norfolk. Its members are fourth, fifth, and sixth formers chosen for their leadership and scholastic abilities and school spirit. Their aim is service to the school and community.

Last year the members seriously considered disbanding the organization. It was thought that it was too small and its members were too busy with other activities to make its existence worthwhile. Rather than do away with it, the members decided to expand and rejuvenate the Key Club. Under the leadership of President Sunny Wooden and the guidance of Mr. White, the new advisor, the N.A. Key Club has become an active and useful part of the School.

The first project of this year was the sale of Norfolk Academy book covers. The undertaking was a success and probably will be repeated next year. During Christmas time, the Club collected and delivered food baskets to needy families. They also held a spring formal for the School, one of the four annual Academy dances. Other duties which the organization has taken upon itself are the preparations for Chapel each morning, the sale of tickets to N.A. athletic contests, and the greeting of visiting athletic teams.

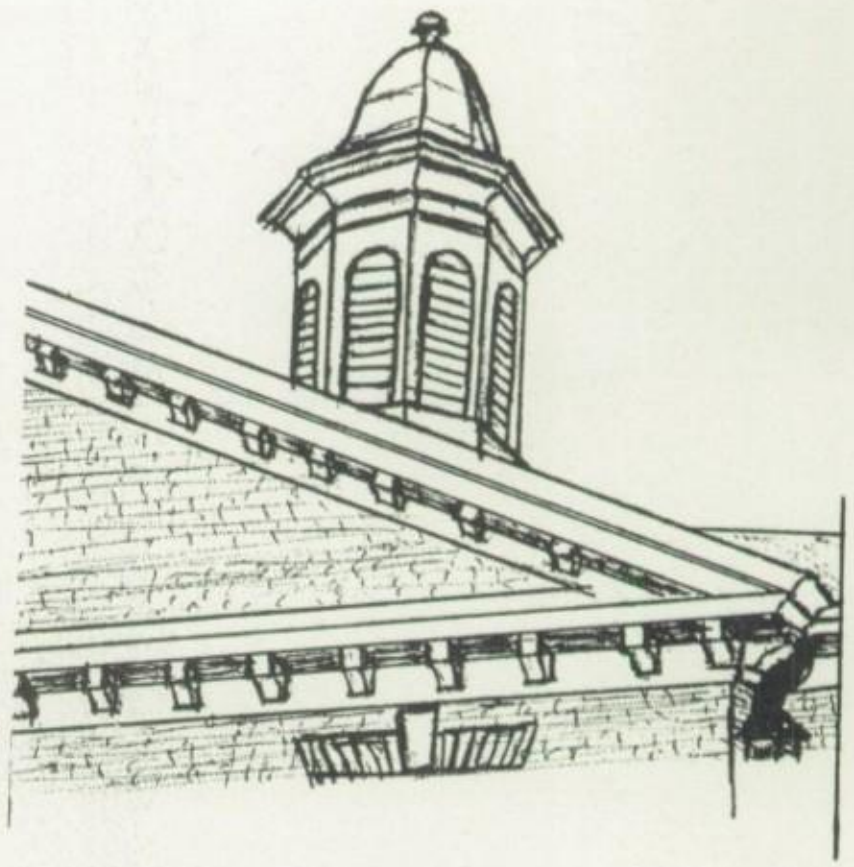
THE BELFRY



This year, in order to resolve the controversy as to whether the *Belfry* should be a newspaper or a literary magazine, the editors have adopted a new format. The *Belfry* appears as a newssheet six months out of the school year and as a literary magazine similar to the *Belfry* of 1957 two months a year.

The editors of the 1961-62 *Belfry* are: Gill Brockenbrough, John Blackford, and John Mortensen. Hunt Rawlings is sports editor of the newssheet. Other staff members include Dick Johnston and John Levin.

THE AN

The Literary Staff of the Annual is the section of the annual staff which is responsible for the laying out of pages and the writing of articles. This year's staff is headed up by John Dinsmore, managing editor; Bob Kahn, photography editor; and Lee Nelson, Sports editor. The boys on both staffs work hard and put in a great deal of valuable time without reward.

The staff owes a great deal to its advisor, Mr. MacConochie, without whose help and advice, the editors would be hopelessly confused (which is true to some extent, anyway). — J.D.

BUSINESS STAFF: *FRONT ROW:* Cashvan; *SECOND ROW:* Price, Donn; *THIRD ROW:* Krasnow, Shulman, Beskin; *BACK ROW:* Hofheimer, Cohen, Herman Lancaster.

NUAL STAFF

Under the direction of Mister Craig, the members of the business staff comb the city in order to find patrons for the advertisement section of the *Orange and White*. This year's editors are Wayne Price and Ronnie Donn. The members often sacrifice their afternoon study halls or athletics in order to secure ads for the annual. As this year's annual goes to press, the members of the business staff anticipate breaking the record established by last year's staff.

SENIOR SCIENCE CLUB

Our Senior Science Club, sometimes called the Epsilon Club, this year appears to be headed for great success. Our officers, who include John Blackford, president; Steve Schechner, vice-president; Wayne Price, secretary; John Dinsmore, treasurer; and Joel Cohen, drink chairman, seem to be determined to present the best speakers on the most interesting subjects this year. Our goal appears to be the purchase of a piece of equipment for the Science Department as a permanent reminder of the success of his club this year.

JUNIOR SCIENCE CLUB

The Junior Science Club is an organization for furthering interest in various fields of science. Boys learn to broaden their sights on the hundreds of fascinating ramifications this field holds.

Although scholastic achievement is necessary for admittance to the Club, a genuine interest must be held by the boys.

This is the first year first form boys have been permitted to the Club. We hope to see this Club grow and benefit from the talks, lectures, and field trips planned.

The Club officers are: Steve Steinhilber — President, Nelson Payne — Vice President, Bruce LaPierre — Secretary, Wally Starke — Treasurer, and Casey Jones — 7th grade representative.

INSTALLATION OF OFFICERS OF STUDENT COUNCIL

In the latter part of September, this year's Student Council was installed in a ceremony in the Academy gym. The Rev. Sidney B. Sanders, new rector of Eastern Shore Chapel at Virginia Beach, addressed the student body.

Class Officers for the 1961-62 school year are:

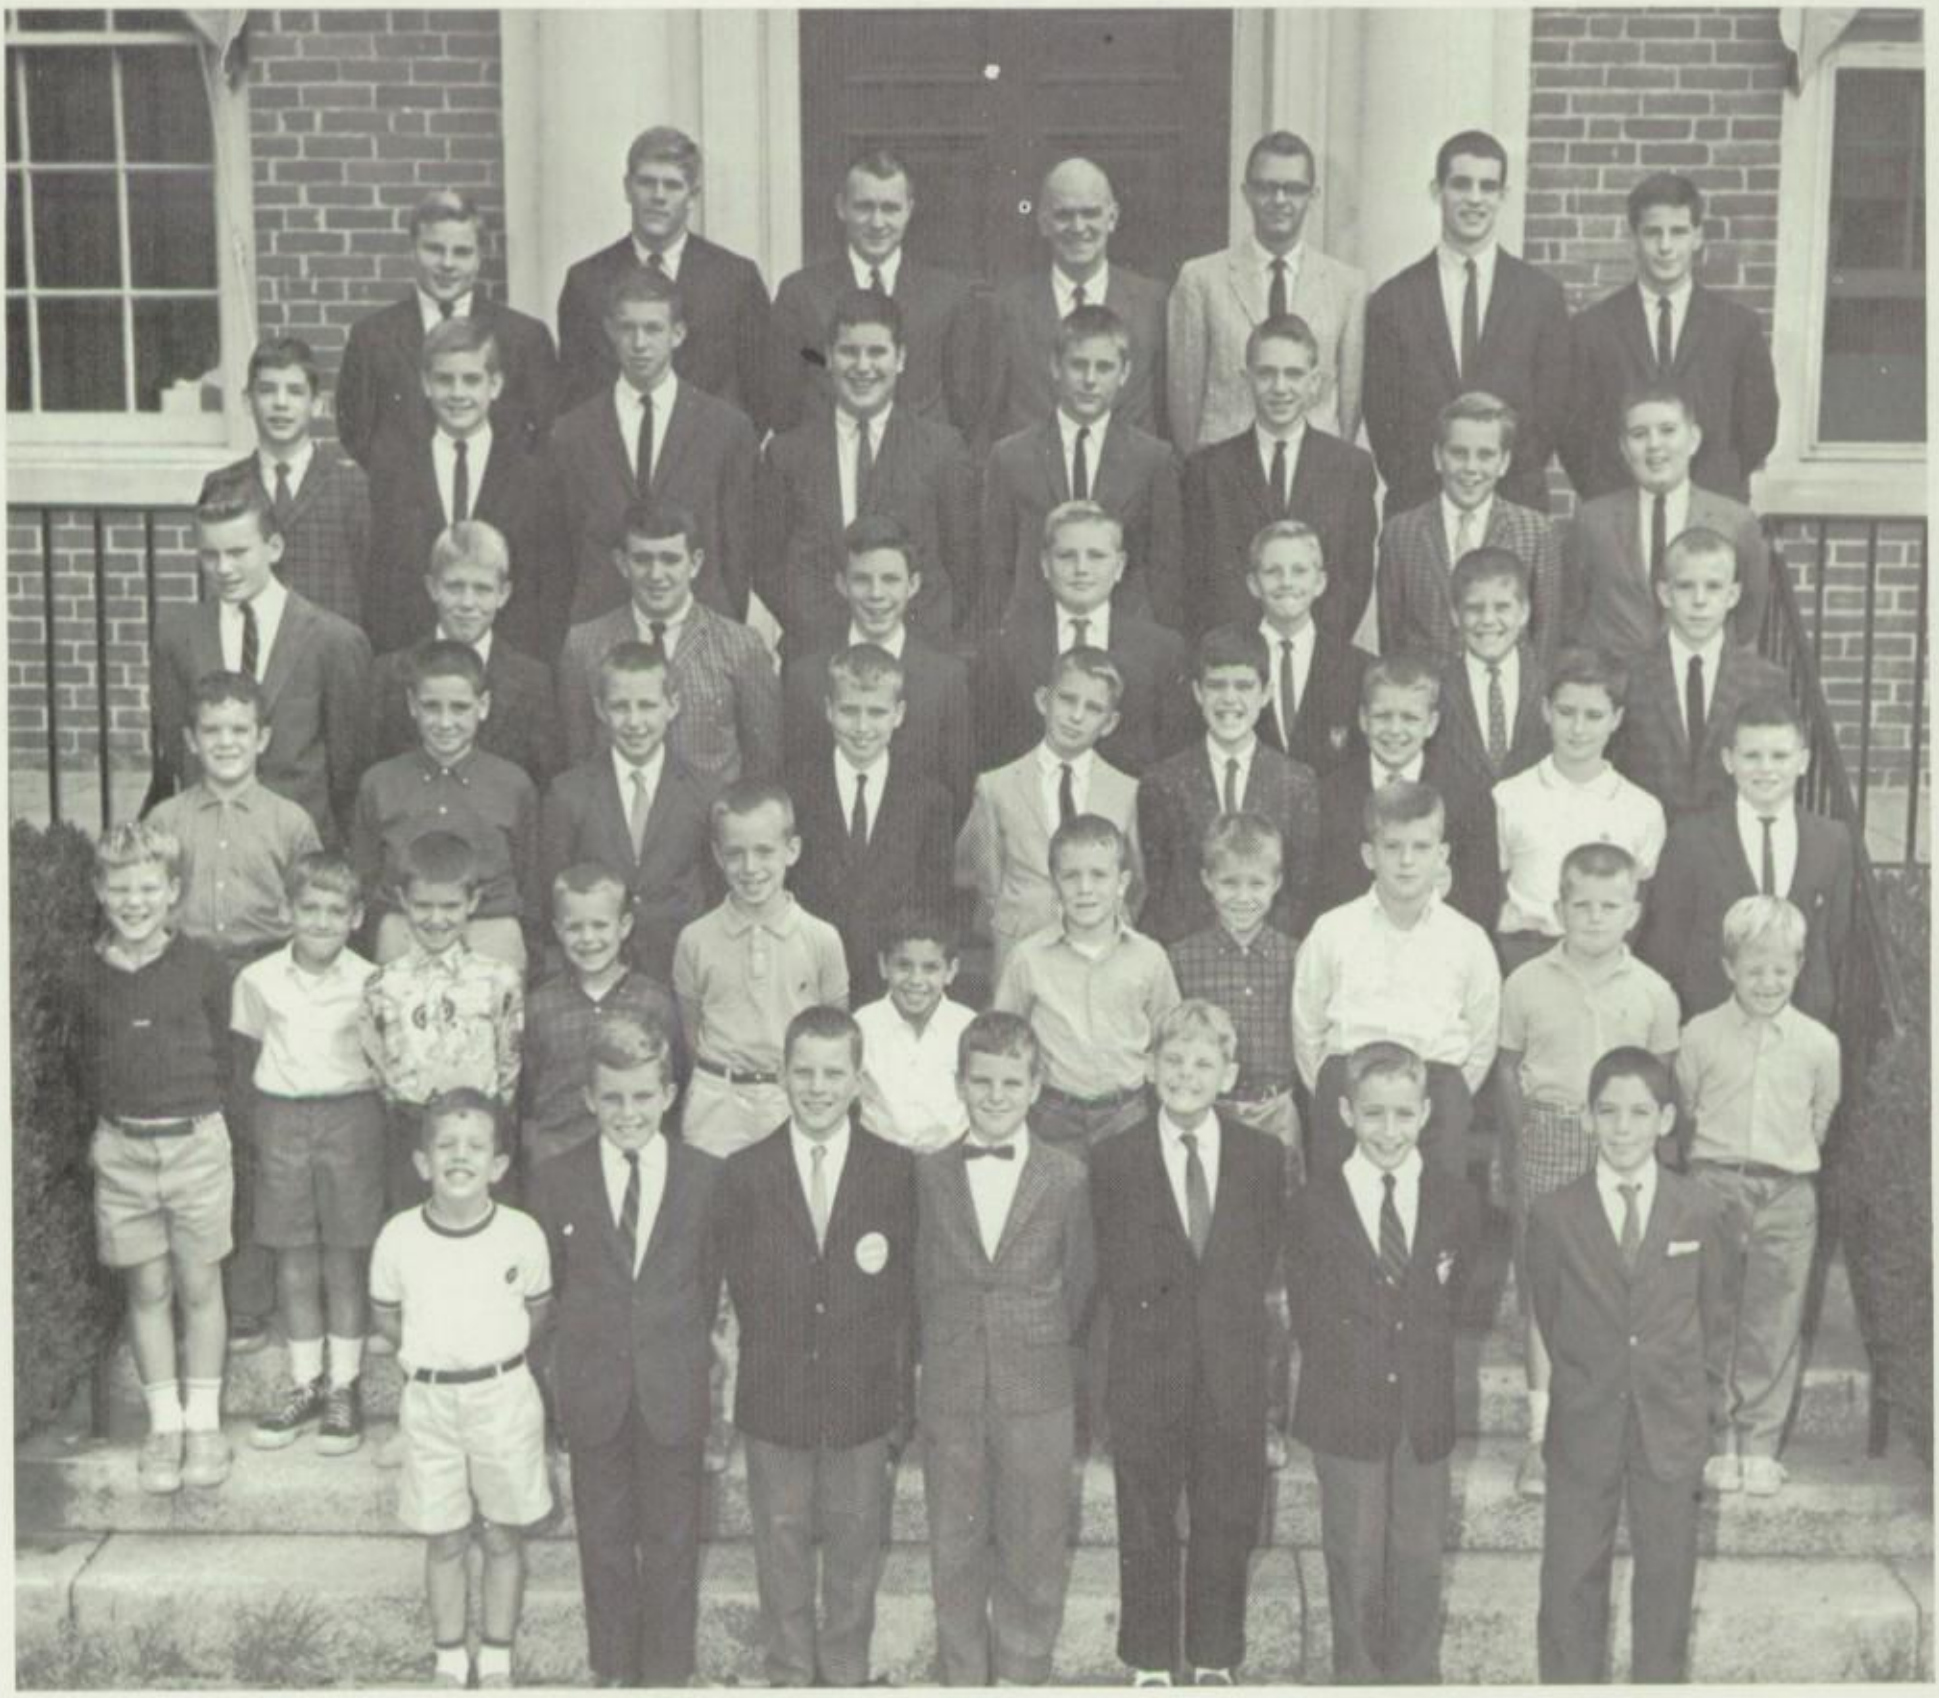
Form II: Pres., Robert Pariser; Vice-Pres., Tommy Massey; Sec. Treas., Lawrence Heyworth.

Form III: Pres., Edwin Underwood; Vice-Pres., Steve Steinhilber; Sec.-Treas., Bruce La Pierre.

Form IV: Pres., Barry Levin; Vice-Pres., Richard Burroughs; Sec.-Treas., Wendall Winn.

Form V: Pres., Bill Grant; Vice-Pres., Bill Sellers; Sec., Paul Rippey; Treas., John Heilig.

Form VI: Pres., Marshall Taylor; Vice-Pres., Sunny Wooden; Sec., Frank George; Treas., Bob Cole.



TOP ROW: Wilkinson, M. Taylor, Tyler, Garnet, Wilkens, B. Culpepper, Kight. *SECOND:* Stark, J. Culpepper, Johnson, Burroughs, Underwood, Winters, T. SONS AND GRANDSONS

The Son's and Grandson's of Alumni is an organization which meets only once a year for the purpose of having their picture taken. No matter how trivial this club may seem, we at the Academy realize the proud heritage of these people and hope that someday we will have our own children become members of this club.

FOOTBALL — 1961

At the beginning of the 1961 season, few people thought that the Bulldogs would have a winning season since the team had lost its entire starting backfield. To the surprise of everyone, however, Coach Jones' chargers, usually bound together with tape and bandages, and playing the toughest schedule in the Academy's history, came through with a brilliant 4-2-2 season record. Coach Jones built his team around its solid inner line composed of Bill Miller at center, guards Rob Jordan and John Franklin, and tackles Herb Sebren and Lee Syer. The offensive attack centered around ends Frank George and co-captain "Snooks T-Bird" Turner and fullback Marshall Taylor, the other co-captain. Filling out the backfield were quarterbacks Dubby Wynne, Bob Fowler, and newcomers Skip Kight, Bob Cole, and Tommy "Rabbit" Maxwell. Yes, 1961 is a year to remember. Here is a close look at how it was accomplished —

N.A. — 14 V.B. — 0

For the second year in a row the Beachers' had the distinction of being the Bulldog's first victim. The fact that Va. Beach was favored by two touchdowns only whetted the team's appetite for victory even more. Rabbit Maxwell's 14-yard run opened the scoring for the year. A third period T.D. pass from Wynne to Woodward put the game on ice.

VB 0 0 0 0 - 0

scoring: NA - Maxwell (14 run), Woodward (28 pass from Wynne). P.A.T. Wooden 2 (kick and run).

N.A. — 12 Frederick — 12

The Bulldogs, the underdogs once more, played a heavier, more experienced Frederick Academy team to a standstill. After giving up a touchdown in the first half, the Academy came roaring back with two T.D.s in the second half using Coach Jones' secret weapon, the "I" formation. Dubby Wynne scored first and three-yard plunge. Late in the Fourth period, Marshall Taylor bulled his way into the endzone from four yards out and N.A.'s second T.D. Frederick tied the game with a 30-yard pass play in the last seconds of the game. Although tied, N.A. emerged with a moral victory.

The next game was played on a cold, rainy day in Richmond. In a wild first half, St. Christopher's scored the first touchdown. After blocking a punt deep in N.A. territory, The Academy stormed back with two touchdowns on passes from Wynne to George, and Wynne to Turner. St. Christopher's again lucked out by blacking another punt for their second T.D. and a tie.

The following week found the Bulldogs playing V.E.S. in Lynchburg. The Academy just couldn't generate an offensive attack because of the ankle-deep mud. V.E.S. pushed across the only T.D. of the game after taking advantage of a series of penalties.

N.A. 12 Catholic 6

The Bulldogs were really up for the Catholic game. Not only was Catholic our chief rival, but the game was played at Foreman Field. In a hard-fought game the Academy emerged with the victory and the Norfolk private school football championship for the fourth straight year. In addition to the victory was the added honor of having Dubby Wynne, who scored both the touchdowns, chosen as the back-of-the-week by the local sports writers.

N.A. — 0 0 6 6 — 12

N.A. 13 Prince George 0

The Academy closed its season by averaging last year's loss to Prince George. The Bulldogs never allowed the "Princess" team to have a chance to score as the game was played in Prince George territory all night. Dubby Wynne put on a real show that night as he gained almost a hundred yards and scored both Academy T.D.'s.

After the game, John Turner was voted the most valuable Bulldog by the team. Others receiving awards were: Bill Miller, best lineman; Dubby Wynne, best back; Frank George, coach's award; and Marshall Taylor, was voted most deserving.

The Bulldogs played their best home game against a tough Hargrave team. The Academy took charge of the game in the first quarter and, except for a brief lapse in the second quarter, dominated play throughout the afternoon. Bob Cole performed exceptionally well — scoring the winning touchdown and gaining 97 yards. Dubby Wynne added the other T.D. after engineering a ninety-yard drive to the Hargrave one-yard line. Sunny "The Toe" Wooden added the all important P.A.T.s.

JUNIOR VARSITY FOOTBALL

As always, the record of a team does not show a true picture of its potential. Such is the case with this year's J.V. football team. The final record was two wins and five defeats. Mr. White, the new coach, with the help of Mr. Lyons whipped the team into shape for the first game with Hampton Roads Academy. Unfortunately, their team was stronger than ours, and we were defeated 19-7. The next two games were more successful, however, defeating both Catholic High (26-7), and Deep Creek (18-7). After these two victories, the team's offense just couldn't get rolling, and were only able to score once in the next four games. The defensive team did a good job at all the games, however, holding down the points against us to an average of 11 points per game. The next meetings with Catholic and Hampton Roads Academy were discouraging however, for both games went to our opponents. In the last game of the season, the Ocean View Aces handed the J.V. a heart-breaking defeat, 6-2.

By these scores one doesn't get a true picture of the team, as it was made up of hard-hitting, spirited boys who simply just didn't get any breaks. Despite the fact that the team will lose many of its most valuable players to the Varsity next year, we still have enough boys to give next year's squad a sound foundation.

VARSITY BASKETBALL

So far this season the Varsity Basketball team has been plagued by its major weakness, inexperience, but as the second half of the season nears the prospects for a winning campaign are much better. Coach Harvie has had some problems to iron out with only one letterman returning in Hunt Rawlings, but the team's strong potential has been shown in games against strong St. Christopher's and Va. Beach.

The season opened with a 46-35 even against Barry-Robinson, but the record was quickly reversed with losses to Norfolk Catholic and St. Christopher's. We evened our record against a strong undefeated Va. Beach team in a double overtime 82-80 with Hunt Rawlings scoring 37 points. The next three games were against Oscar Smith, St. Paul's, and St. Christopher's and we lost them, but then defeated Frederick Academy 52-39. We expect to reverse several of these losses when we play the second time because of the much improved performances of some of the starters.

Carrying the point burden has been up to Dubby Wynne with a 13.5 average and Hunt Rawlings with a 14.2 average, with Herb Sebren, John Turner, and Kent Woodward rounding out the starting five. If the team continues to improve at its present pace it should turn in a respectable record and also surprise quite a few opponents. Returning next year will be Dubby Wynne, Kent Woodward, Don Nash, Alex Bevernick, Bill Grant, Joel Cohen, George Bennett, Marty Wittersheim, and John Heilig with hopes for a successful season.

Despite a lack of experience on the team, Mr. Vulgan and the team are looking for better things in the future games. Led by captain Dudley Cocke and co-captain Dick Lahey, the team has had only two victories, one over Barry-Robinson and one over Virginia Beach. Among the defeats have been three one-point losses. These close defeats seem to indicate that the team is considerably better than the won-lost record would indicate.

VARSITY WRESTLING '61-'62

"The Viking"

Through the tireless efforts of Armand Taylor, the Norfolk Academy now has one of the top wrestling teams in the state of Virginia. Mr. Taylor started with a handful of inexperienced boys four years ago and has developed a team that not only competes with all types of, and any, high schools, but also beats a good 75% of them.

With thirteen matches behind them, the grapplers have defeated ten teams, including private, parochial, group I and II schools, and have lost to only the top three schools in the state, Granby (26-24), Norview, and Maury. The toughest matches are past; consequently, the next two matches will probably greatly improve the team's record and average for the season.

Sickness, injury, and competition all have their effect on the starting line-up, each week, but with very few exceptions it goes as follows:

"Cozy" Cole

wt, class — name — record	(w-l-t)
98 lb.	Barry Levin (8-3-2)
103 lb.	Jay Thiemier (5-4-0)
	Steinhilber (2-1-1)

120 lb.	Dick Musick (13-0-0)
127 lb.	Newty Miller (10-1-2)
133 lb.	Lee Nelson (10-2-1)
138 lb.	Chuck Davis (6-1-0)

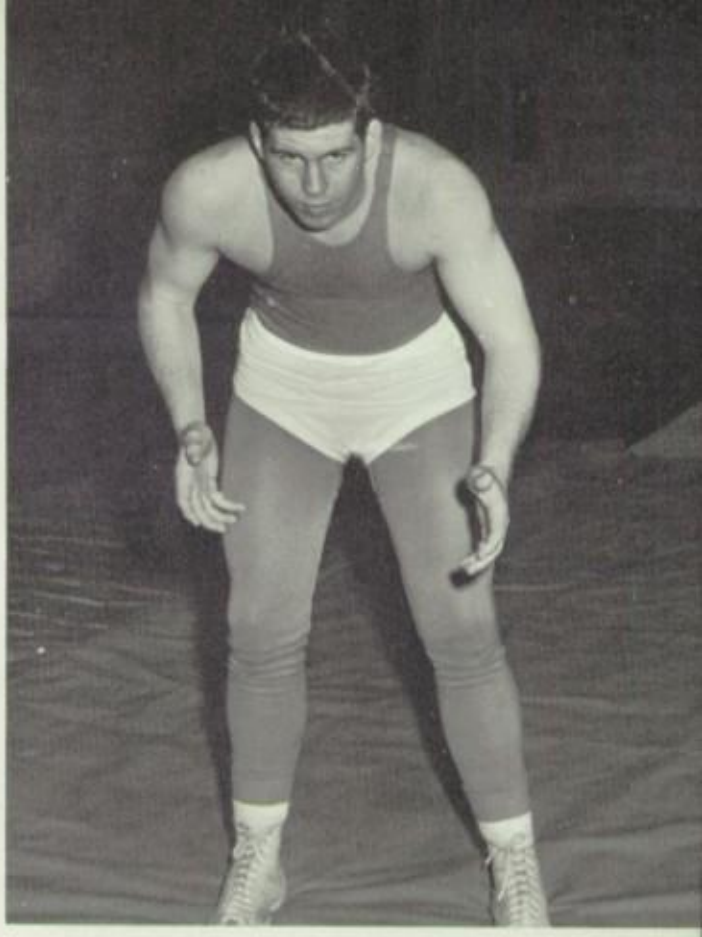
175 lb.	John Franklin (12-1-1)
Unlim.	Lee Syer (4-1-2)



Johnny Franklin

In wrestling, probably more than any other sport, the second team is very important. This year, a few new boys have shown terrific ability, and promise to be excellent wrestlers. Skid Haworth at 112, although only an eighth grader, has developed into a fine wrestler with good style and balance. John Dennis has had rough luck this year, but he is a good wrestler and will no doubt start at 127 next season. Johnston, at 140 is rapidly developing while Ted Sterns and Pete Sights will be taking the places of B. Cole and B. Miller next year. Both are shaping up into strong determined wrestlers. Holdovers from this year will include Levin, Theimier, and Musick, who will probably remain at the same weights. Steinhilber and Payne will probably move up a weight class, and Newty Miller will probably move up to 133 to take over the position vacated by Lee Nelson.

All in all, the 1961-62 wrestling team has proved itself to be the best in the history of the school. This fact was brought out when the team went to Orange, Virginia and defeated Woodberry Forest 40-8 and reaped for itself the unofficial title of Virginia Prep School Champions. On the weekend of March 2 and 3 the team will try to get into a tournament for Prep Schools at LeHigh University. If the team does as well as it has done this year, it may bring home the title of Eastern District Prep School Champions.

1962 SOCCER

With the largest schedule ever given an Academy soccer team, Coaches Tyler, White, and Shields began the 1962 season with great hopes. Frank George, with his invulnerable head, and "Rabbit" Maxwell, with his speed, were chosen co-captains. They are surrounded by excellent talent in Skip Kight and Bob Fowler, who are both noted for their ability. Tommy Thompson is doing outstandingly well as "freshman" wing. Ken Smith, this year's high scorer, and veteran lineman, rounds out the offensive thrust of the team. Defensively, we have Chip Castle and Bill Sellers as half-backs, Dick Johnston and Bob Kahn as full-backs, and Bob Jordan ably holds down "goalie."

The Academy team was dealt a defeat in the opening game against Christ Church 3-2. Although the Academy ruled the field, Christ Church scored with better ability. Ken Smith and Tommy Thompson scored for the N.A. Two weeks later another setback was handed the Academy when the Navy champions defeated the Academy, 7-0. Two fast victories directly followed the two defeats. On a rain-swept field, Academy downed VES 4-1, with Ken Smith scoring three times, while Frank George tallied once. NA easily defeated Hampton Roads Academy 4-0, with the scoring more evenly spread. Fenton Wilkinson, Stephen Schechner, Tommy Maxwell, and Ken Smith made goals. Then, Christ Church dealt the Academy its third defeat, to the tune of 5-1. Ken Smith knocked our goal in after an assist from wing Bob Fowler. It seemed that our ability froze on that cold afternoon. St. Christopher's fell victim 6-2 with Smith pulling in three goals, Bob Fowler two, and Tommy Maxwell one. The Academy ruled the entire second half, scoring five times and dominating all play.

Four more games face the Academy eleven: Woodberry Forest and VES on one trip, then Hampton Roads, and St. Christopher's follow. There are high hopes that the 3-3 record will be hiked to a winning percentage.

VARSITY BASEBALL

For the third straight year the Academy baseball team has turned in a winning record.

The big three of the Academy mound staff were George Heilig (4-3), Hunt Rawlings (3-2), and Dick Hofheimer (2-0). For the fifth consecutive season the catching position was handled by veteran Kenny Miller. Bill Withrow at first, Hunt Rawlings and George Heilig at second, Bill Manser at shortstop, and Sonny Wooden at third provided N.A. with the finest infield in its baseball history. Sluggers Bob Cole, John Heilig, and Bob Culpepper filled out the outfield positions.

After losing the first two games, the team jelled and won the next eight games in a row (an N.A. record). The team's victory streak ended with a heartbreaking fourteenth inning loss to Oscar Smith. Our boys finished the season with a splendid 9-5 record.

The most exciting event occurred at the end of the season when the local sportswriters awarded George Heilig the trophy for the outstanding baseball player in the city.

VARSITY GOLF

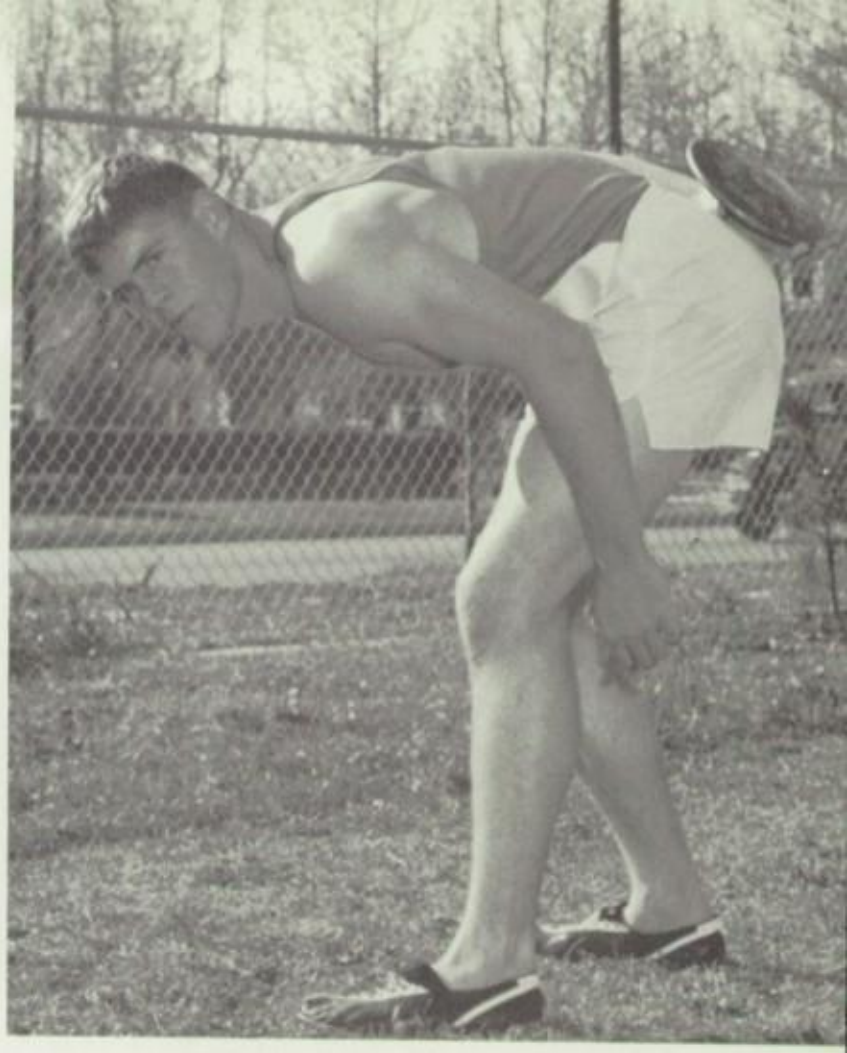
The Golf Team of the N.A. was begun by two seniors, Bill McClanan and Skip Hillsman and included Roger Olson, Sandy Nemo, Dick Payne, Bob Boe and Bob Green. All the members obtained permission to leave school at 3:15 to go to a course to practice.

We started our season against Granby with McClanan as first man, Olson as second man, Hillsman as third man, and Boe as fourth man. Bill McClanan was our only man to win his match as we were defeated at the Princess Anne golf course. Our next opponent was a re-match with Granby in which every member of the team was defeated at Ocean View golf course. Things became brighter, however, as of all of the first four: McClanan, Boe, Nemo and Hillsman won their matches as they decisively defeated Maury at Princess Anne golf course. The last game with Va. Beach was rained out.

The 1961 season marked the 3rd year of competitive track for the Academy. Like all young teams, they found the competition tough, and the only victory to be had was at Christchurch. However, you cannot judge a team by the final record. Hard luck prevailed in certain meets such as the one vs. Oscar Smith, where the Bulldogs were handed a 60-53 defeat. The overall strength of the team was low, but there were some outstanding boys. Marshall Taylor put in some impressive running in the mile, and Jack Law will long be remembered for his 880. In short distances we had John Turner in the high and low hurdles along with Lee Nelson for the 100 and 220 yard dashes.

TRA

BACK ROW: Mr. Cash, Parsons, Sellers, Rippey, Musick, Miller, N., Syer, Howard, Taylor, Sugg, Nelson, Couch. *FRONT ROW:* Sebren, H., Grenfell, Horne, Matthews, Stickles, Miller, W., Fowler, Law, Turner, Chapman.



Though our record was 5 and 1, we dominated the field events in most of the meets. Several times Lee Syer put the shot over a distance of 40 feet, and in the sawdust pit, we had Herb Sebren in the high jump, with Bill Miller in the pole vault.

Graduation took its toll in removing Jack Law, but returning we have Turner, Nelson, Taylor, Syer, Sebren, and Miller. With this lineup, a better season is expected.

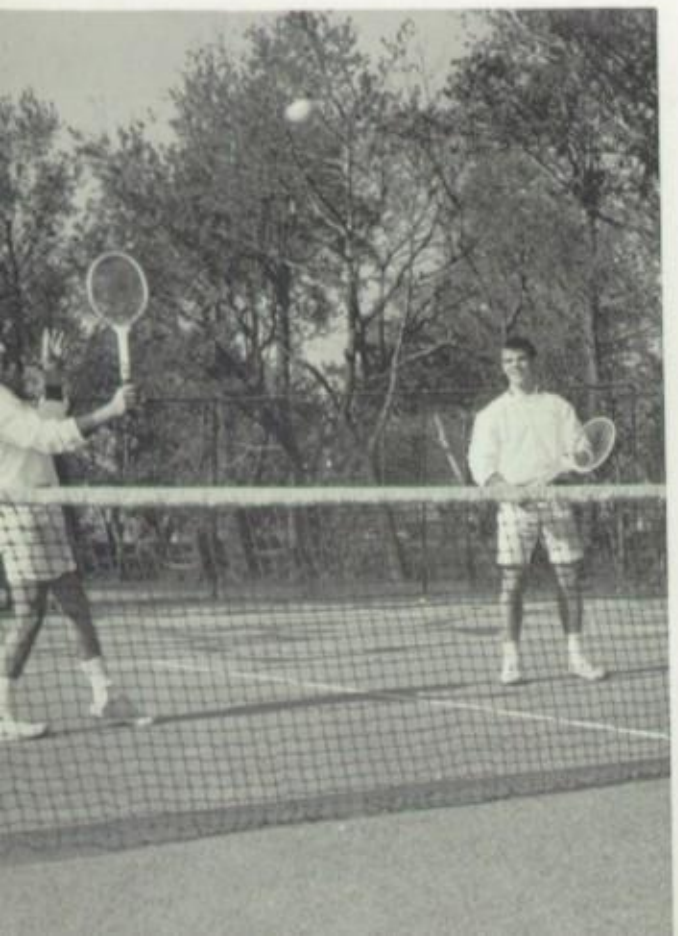
VARSITY



With the return of five starters, the 1961 tennis team looked forward to a good year. Mr. Tucker was rather optimistic about this year's team and expressed hopes that it would fulfill all expectations.

The team got off to a good start by defeating Granby 6-3, but followed with a 7-2 loss to State Champion Suffolk. A disappointing loss to St. Christopher's by the score of 6-3 was avenged by defeating Great Bridge 9-0. The Academy team then lost three close matches, all by the score of 5-4, to Maury, Christchurch, and finally Suffolk — the loss to Suffolk was almost considered a victory as this was Suffolk's closest match of the year. Returning to Granby, the Academy once again won rather heartily by 7-2 and then proceeded

to "knock off" Wilson and Christchurch; Wilson, 9-0; Christchurch, 5-1, after losing a close match to St. Christophers, 5-4, the tennis team finished the year with a 9-0 thumping of Great Bridge.

The ladder consisted of Dubby Wynne at the No. 1 spot, Kent Woodward at No. 2, Dudley Cocke at No. 3, John Winters at No. 4, Cornell Berry at No. 5, and graduating senior Skipper Stirling at No. 6.

Having five lettermen back again next year, and with the addition of four promising new players, we can look forward to an improving team.

The Spring Play

This year's play was a three act mystery-comedy by Frank W. Spohn called "The Night Owl."

"The Night Owl" was the fifth of the Academy plays and is considered by some to be the best. The play was directed by Mr. Allen Tyler, and produced by Mr. Andrew Dellis. The cast consisted of boys from the Academy and girls from the Country Day School at Virginia Beach, all of whom did a magnificent job of making "The Night Owl" the best play in Academy history.

Mr. Tyler has assured us of even better plays in future years.

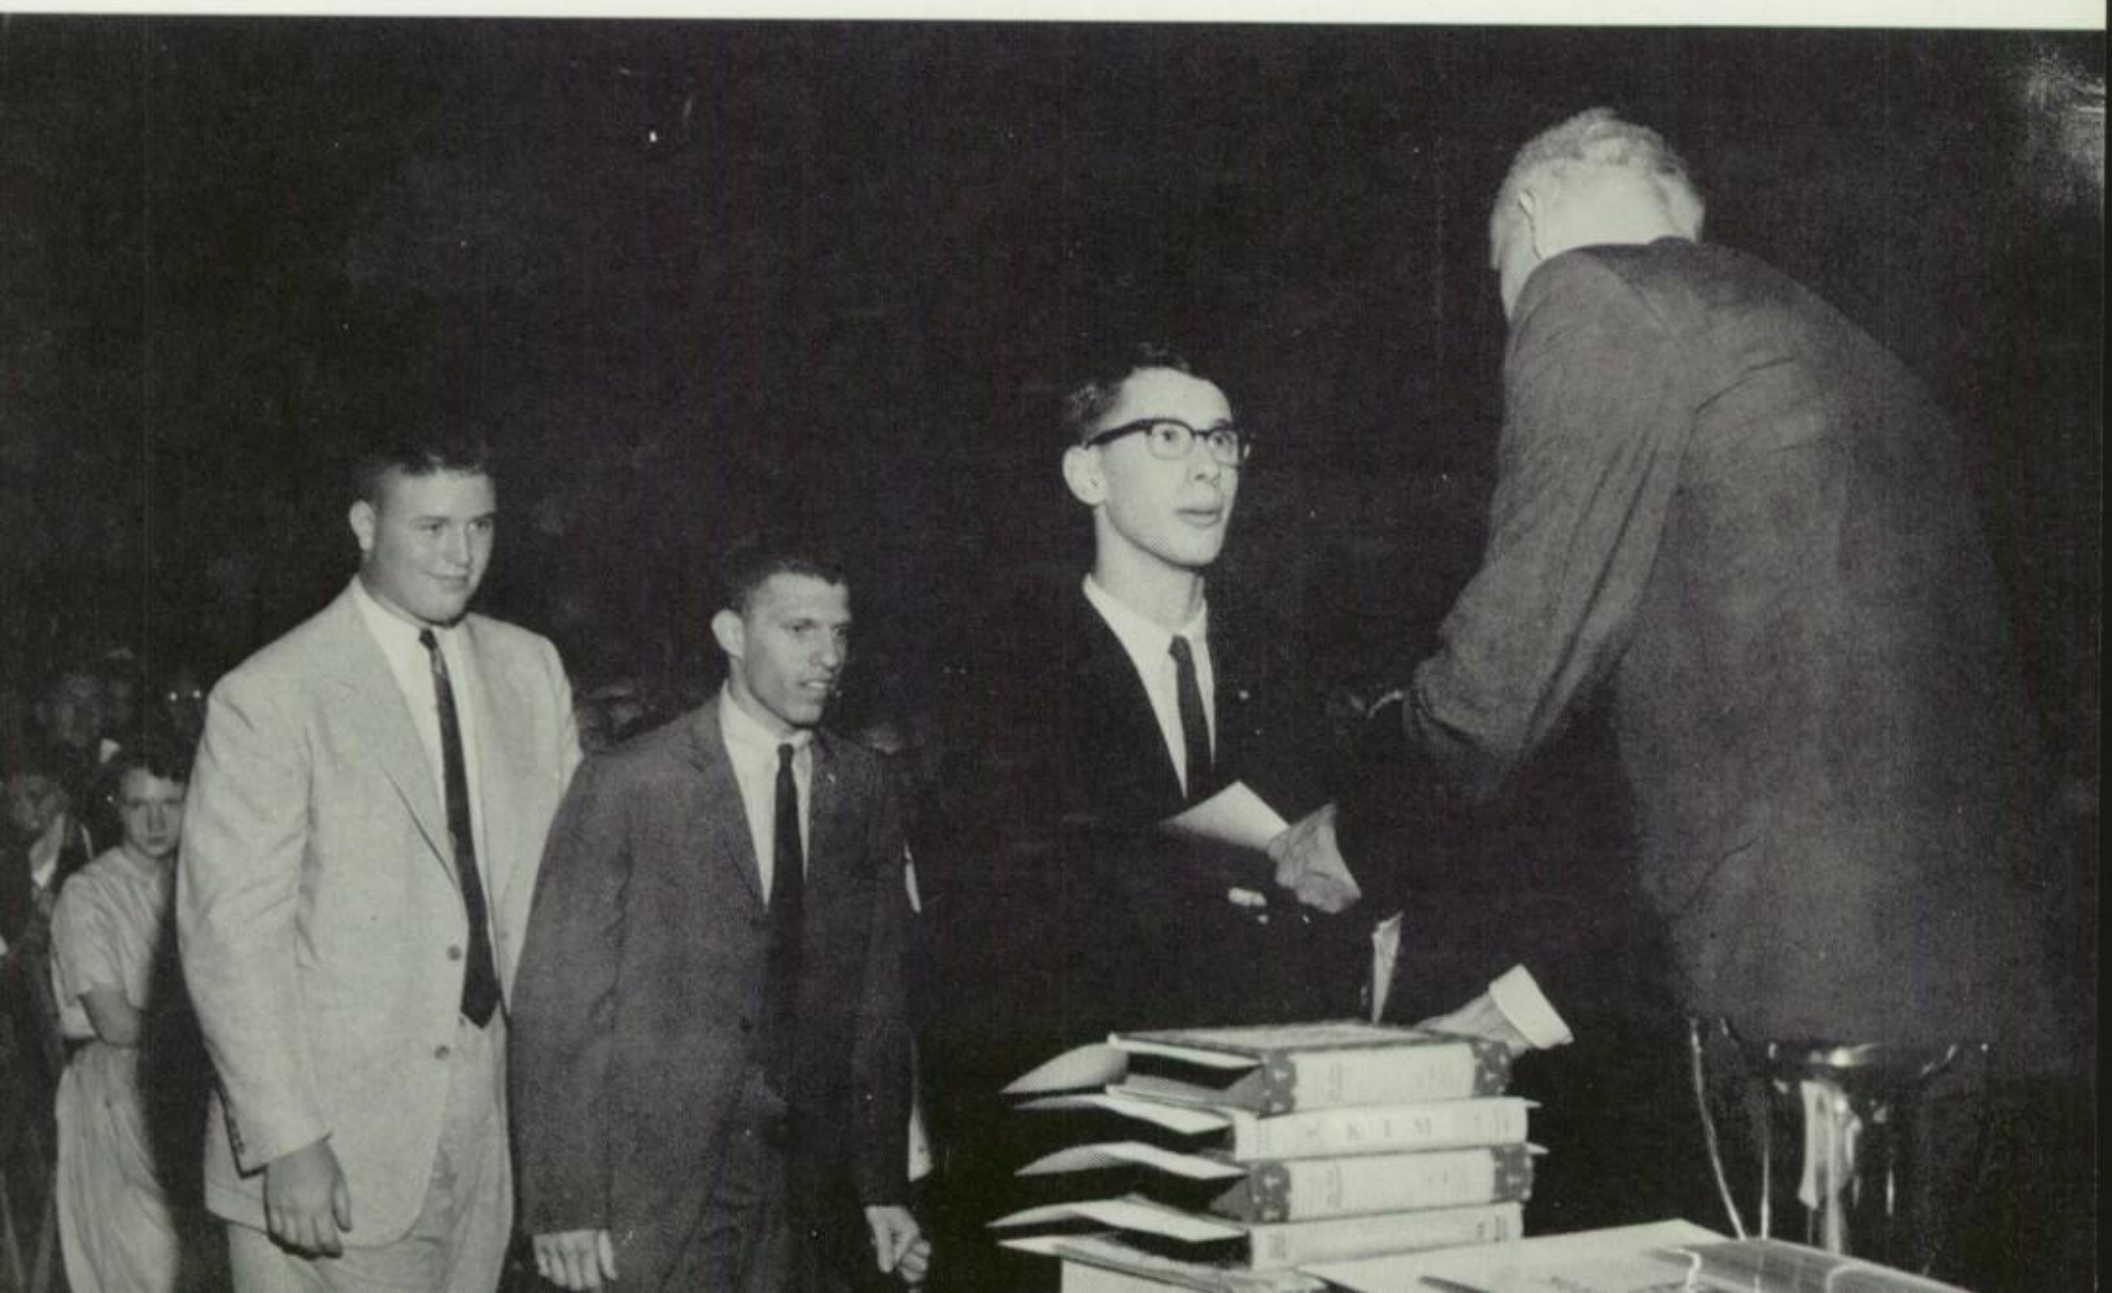
COMMENCEMENT 1961



Mr. W. Elliott Wilkins

In 1950, when Mr. Wilkins came to the Academy, there were only 137 students and perhaps half the physical equipment which we enjoy today.

From the first, Mr. Wilkins stood for academic excellence; and this single-minded principle — tempered with an abiding interest in every young person with whom he has come in contact — has been one of those intangible but nevertheless essential factors in the growth and health of the School. Under his tutelage, for more than a decade, Academy students have learned Latin, and learned it well — not to mention Greek, German, and English.

Mr. Wilkins has helped to write an important chapter in the history of the School. As grateful as we are for his contribution to our academic life, we are even more mindful of the many hours of companionship — his sharing of varied interests in music, in coins, in antique automobiles with boys from every form in the school. In the classroom and out, he has given definition to the word teacher at its best.

Our very best wishes go with Mr. Wilkins, as he takes up a new assignment in the fall of 1962.
